## 2012 CAPITAL IMPROVEMENT PROJECTS

- The drainage projects and street resurfacing list on the following slides provides an update on the status of the projects for 2012.
- The 2012 Street Resurfacing Program contractor has completed asphalt resurfacing on 83,801 linear feet (15.9 miles) of city streets for a current project cost of \$2,609,927. Several street sections remain to be overlaid with plans to have them completed by the end of the year.
- The in-house Sidewalk Program has completed 22,115 square feet (approximately 4,423 linear feet) of new sidewalks since July 2012. The current expense associated with the in-house sidewalk program is \$207,113.02.

## 2012 CAPITAL IMPROVEMENT PROJECTS

- Four speed humps that met warrants were identified for installation by Traffic Engineering. Two humps have been installed for a cost of \$8,400 and a notice to proceed for installation of two additional speed humps has been issued. Citizen requests forms for speed humps are being evaluated for warrants as they are received and will be constructed as funding is available.
- Additional capital projects in 2012 include traffic signal loop updates/repairs, pavement marking, engineer design services and grant matching.
