

Departmental Presentations
Information Technology
Department

June 19, 2013

Department Summaries

- **The Information Technology Department's money is for general technology upgrades across the City for network connectivity and reliability of systems that effect all other City departments. As the other departments move forward with their projects, we are also playing a supporting role.**

Department Summaries

Operational

- **Construction of second Data Center in the Fire Training Building nearing completion. (\$175,742.18)**
- **Fire Suppression System for second Data Center is in final stage of implementation. (\$55,262)**

Department Summaries

Capital

- **Deploying the 200 computers purchased to replace computers that can not run Office 2013. 94 of the 200 have been deployed.**
- **Finalizing a proposal for the upgrade of City's technology infrastructure, equipment and software.**
- **Continuing to assist other city departments on the technology required for the sales tax projects.**
