- Registrar
- Carnivore Keeper
- Senior Primate Keeper
Other operational dollars spent:
Master Plan revision to the Zoo’s 2001 master plan – RFQ process is complete and we will start the process in the next month
Professional Development – the Zoo will send three employees in the maintenance department to get LED certifications to help the Zoo be “greener” in its maintenance practices
Deferred Maintenance – funds have been used to repair roofs on buildings and do other general maintenance to keep exhibits and facilities up to date and working
Education – the Zoo revamped the Wild Wonders Animal Show

The Zoo was allocated more than $700,000 from the capital tax:
Bids have gone out to renovate the tiger exhibit to allow for tiger breeding. The exhibit will be split so that the male and female can be separated once she gives birth. This will allow us to continue to be a tiger breeding facility in the future.
Bids have gone out and construction is underway on renovations to the otter and bear exhibits. This is an AZA requirement.
