

## Re-Entry Services

Programs assist those who have been released from a correctional facility to make a successful transition to community life in the City of Little Rock. Services include an assessment of the individual's needs, discussion of employment training options, and short-term case management.

## Tobacco Prevention Program

This program is part of a targeted collaborative effort with various community providers to create a tobacco-free Little Rock. The program focuses on prevention, policy development, and smoking cessation.

## Little Rock Commission on Children, Youth & Families (CYF)

In its advisory role to the City of Little Rock Board of Directors, the Commission provides policy leadership and advocacy to improve the health, safety, education, and quality of life for children, youth, and families in Little Rock. To that end, CYF and the Department of Community Programs work together to create a full partnership of City and government agencies, local educational agencies, public and private businesses, and dedicated organizations working directly in Little Rock neighborhoods so all families can enjoy safe, nurturing, self-determining, drug-free, and violence-free environments.
