City Manager Bruce Moore stated that the previous day, President Obama had issued an order banning certain military-style equipment, such as armored trucks, assault rifles, etc. City Manager Moore stated staff had studied the list and compared it to the items being recommended and had determined that the ban did not impact what was being purchased, as the City was not purchasing the items from the Federal Government. Director Hendrix asked what items were being recommended for purchase. Little Rock Police Chief Kenton Buckner reported that the items that would be purchased included: gas masks, along with the filters for the masks; gas mask carrier; shin guards for lower extremities; helmet; and shield.

Director Webb asked when staff determined that the equipment was needed. Chief Buckner stated that over the past several months it had been determined that many of the Officers were missing standard-issue items. Chief Buckner stated that with the assistance of the Emergency Management Division, they had been able to acquire some of the items, such as tourniquets and personal protection equipment (PPE), which included goggles, gloves, and sanitizer. Director Webb asked if grant monies were available for the purchases and if it had been determined that it was necessary for all 500 Officers to receive the equipment. Chief Buckner stated that due to the enormity of the numbers of Police Departments across the country applying for grant funding, the likelihood of actually receiving grant funding would be minimal. Chief Buckner stated that a Police Officer could not be expected to protect someone else's life or property if he/she did not have the ability to protect themselves. Chief Buckner stated that currently there were only forty-four (44) Officers with protective equipment. Director Richardson asked if any of the Officers still rode their bicycles in the neighborhoods and distributed their business cards in an attempt to forge a relationship between the community and the Police. Chief Buckner stated that due to the volume of calls for service, there were
times when the COP Officers were in-line taking those calls. Chief Buckner reported that the COP Officers did have bicycles and the attempt was to get them out in the neighborhoods as frequently as possible. Chief Buckner stated that in an effort to maximize their time, bike racks were being installed on the cars so that during down times with fewer runs, the Officers could park their vehicles and ride their bicycles throughout the neighborhoods.

Director Wyrick asked how many agencies in Pulaski County had the same type of protective gear. Chief Buckner stated that he did not know about Pulaski County; however, he knew that the Arkansas State Police was in the process of ordering the equipment. Director Wyrick asked if there would be training for the Officers so that they would know how to determine when the appropriate time was to don the equipment. Chief Buckner stated that roll call training was being developed so that all Officers would become familiar with when and where to utilize the equipment.

Omaavishukur: Stated that he was against the purchase of the protective equipment and he felt that the community would be safer without Officers showing up to an incident in the equipment, which might escalate violence.

John Gilchrist, 63 Springridge Court: Stated that he was President of the Little Rock Fraternal Order of the Police, which represented all Little Rock Police Officers. Mr. Gilchrist stated that during his twenty-seven (27) years of service, he had been in two (2) situations where the equipment would have been useful. Mr. Gilchrist stated that unless Officers were adequately protected in all circumstances, they would be unable to protect the citizens. Mr. Gilchrist asked the Board to support the purchase of the equipment.

Annie Abrams, 1925 Wolfe Street: Stated that she supported the Prevention and Intervention approach to dealing with situations. Ms. Abrams stated that she wanted to see additional data to support the fact that the Officers needed the equipment before she could support the purchase. Ms. Abrams stated that the Board should request additional information before a decision was made.

Carolyn Floyd: Stated that she had lived in Little Rock for thirty-seven (37) years and had never seen a riot in her neighborhood, and she was against the purchase of the protective equipment.

Sgt. Rodney Lewis: Stated that he had been with the Little Rock Police Department for twenty-five (25) years and on the Special Response Unit Team for twenty-four (24) of those years. Sgt. Lewis stated that although the City had never seen riots similar to the ones occurring around the country, he felt that the Officers needed to have the equipment should an incident occur.

Ross Racop, 301 Alamo Drive: Stated that Little Rock had never experienced riots and that people in the City had calmer minds. Mr. Racop stated that more research needed to occur before the acquiring the equipment and that he was against the purchase of the protective equipment.

Vice-Mayor Hines made the motion, seconded by Director Cazort, to call the question on the vote.

Director Hendrix stated that she had indicated earlier that she wanted to make a motion to defer.
