BACKGROUND	<p>The Arkansas Highway and Transportation Department (AHTD) has begun right-of-way acquisition for a project to widen Interstate 630 to four (4) lanes each direction and to reconstruct overpasses and interchanges. To construct the project, AHTD has requested a donation of a Temporary Easement to reconfigure and reconstruct a small portion of the bike trail at Kanis Park. This Board action authorizes the conveyance of the necessary agreement and easement to accomplish the project. The AHTD is asking that the City donate the easement.</p>
