

**OFFICE OF THE CITY MANAGER  
LITTLE ROCK, ARKANSAS**

---

**BOARD OF DIRECTORS COMMUNICATION  
DECEMBER 16, 2025, AGENDA**

<b>Subject:</b> Approval of Resolution for acquisition of Fleet Routing and Optimization software and mobile application for use by the Public Works Department Solid Waste Services Division.          <b>Submitted By:</b> Department of Public Works	<b>Action Required:</b>  <div style="text-align: center;">Ordinance √ <b>Resolution</b></div>	<b>Approved By:</b>          Delphone Hubbard City Manager
<b>SYNOPSIS</b>	Resolution to authorize the City Manager to enter into a contract to provide the Public Works Department Solid Waste Services Division with Fleet Routing and Optimization software and mobile applications for a term of three (3) years.	
<b>FISCAL IMPACT</b>	The cost is not to exceed \$498,500.00 for a three-year term. Funds are allocated from Account No. 603110-61350.	
<b>RECOMMENDATION</b>	Approval of Resolution.	
<b>BACKGROUND</b>	The Solid Waste Services Division is currently still assigning daily routes via designated regions on printed paper maps. This system increases the likelihood of missed trash pickups due to lack of assignment clarity and does not allow for the accurate tracking of completed garbage collection. The selected software has been identified as a tool to modernize this system to improve efficiency and data collection and tracking of the performance and metrics of the Solid Waste Services Division Collections Fleet.
