**RECOMMENDATION**

**BACKGROUND**
The applicant is requesting to have two (2) separate living units in addition to the main house located in an R-2, Single-Family Zoning District. The 7.82-acre West Little Rock site, located outside the City Limits at the time of construction, contained the main house, the garage and the stables, which at the time of construction included a living quarters with a kitchen. This property was later annexed into the Little Rock City Limits. After Mr. Moody, the current owner, purchased the property, he added a guest/pool house which includes a kitchen and an outdoor kitchen.
BACKGROUND CONTINUED

The stables have fallen into disrepair and therefore are in need of rebuilding. With the reconstruction the stables will include space for two (2) horses and a living quarter along with a kitchen similar to the original stable construction.

The stables are not currently on a separate meter and the owner does not intend to separate the utilities from those of the main house. The owner plans to have a member of his family live at the stable and take care of the horses while she attends UALR. Afterwards, the owner may rent the living quarters to someone that would continue to look after the horses and the property. The owner intends to occupy the main house continually.

Future construction on the site may include landscape and architectural features which may include an outdoor fireplace, retaining walls associated with landscape features, gazebos and trellises etc. Any construction of additional barns and/or sheds will be reviewed via a revision to the PD-R zoning.

The Planning Commission reviewed the proposed PD-R request at its February 2, 2017, meeting and there were no registered objectors present. All property owners located within 200 feet of the site along with the Pinnacle Valley Neighborhood Association and the Tulley Cove Neighborhood Association were notified of the Public Hearing. Please see the attached Planning Commission minute record and site plan for the applicant’s specific development proposal and the staff analysis and recommendation.
