RESOLUTION NO. _____________

A RESOLUTION TO SEEK THE DESIGNATION OF BEING A BEE CITY USA®; TO RECOGNIZE THE IMPORTANT CONTRIBUTIONS OF POLLINATORS; AND FOR OTHER PURPOSES.

WHEREAS, the goal of Bee City USA is to promote healthy, sustainable habitats and communities for bees and other pollinators; and

WHEREAS, thanks to the tremendous diversity of wild native bees, along with the honey bees that were brought here from Europe in the 1700s, we have very diverse dietary choices rich in fruits, nuts and vegetables and;

WHEREAS, bees and other pollinators around the globe have experienced dramatic declines due to a combination of habitat loss, use of pesticides, and the spread of pests and diseases, with grave implications for the future health of flora and fauna; and;

WHEREAS, communities have the opportunity to support bees and other pollinators on both public and private land; and;

WHEREAS, supporting pollinators fosters environmental awareness and sustainability, and increases interactions among community stewards such as commercial and backyard beekeepers, farmers, children, educators, Master Naturalists, Master Gardeners, plant nurseries, municipalities, neighborhoods, and garden suppliers and clubs; and;

WHEREAS, the economic benefits of (native and honey) bee-friendliness include: 1) healthy ecosystems--insect pollinators are required for pollination and reproduction of approximately 85% of flowering plants globally, plants that are vital for clean air and water, provide food, fiber and shelter for people and wildlife and support the very insects that pollinate our crops and form the basis of food webs; 2) increased vegetable and fruit crop yields due to bee pollination; 3) increased habitat for natural enemies of crop pests and therefore reduced need for and costs associated with pesticides; 4) increased demand for pollinator-friendly plant materials from local nurseries and growers; and 5) income earned by beekeepers and others through the sale of bee products, beekeeping equipment and supplies, and hive rentals for pollination; and, heightened prestige and premium asking prices for place-based honey, which enhances the visibility and reputation of its community of origin; and;

WHEREAS, Little Rock, Arkansas should be certified a Bee City USA community because: 1) Little Rock is already taking greenspace and pollinators into consideration on all new construction; 2) the City has already begun using bee friendly plants in public gardens and parks; 3) there has been an increase in urban bee hives in Little Rock and becoming a Bee City USA would help to foster further growth, including
Dunbar Gardens, Western Hills Park and Catholic High School for Boys; and 4) it would aid the City’s effort toward becoming more sustainable; and;

WHEREAS, ideal pollinator-friendly habitat: 1) provides diverse and abundant nectar and pollen from plants blooming in succession; 2) provides clean water for drinking, nest-building, cooling, diluting stored honey, and butterfly puddling; 3) is pesticide-free or has pesticide use carried out with least ill effects on pollinators; 4) is comprised of mostly, if not all, native species of annual and perennial wildflowers, shrubs, trees, and grasses because many native pollinators prefer or depend on the native plants with which they co-evolved; 5) includes, where possible, designated pollinator zones in public spaces with signage to educate the public and build awareness; 6) provides for safe and humane removal of bees when required; and 7) provides undisturbed spaces (leaf and brush piles, un-mowed fields or field margins, fallen trees and other dead wood) for nesting and overwintering for native pollinators; and;

WHEREAS, in order to enhance understanding among local government staff and the public about the vital role that pollinator’s play and what each of us can do to sustain them, the City of Little Rock, Arkansas, agrees to meet the commitments required of all Bee City USA communities set forth in this Resolution.
