**Submitted By:**

Planning & Development Department

**SYNOPSIS**

The owner of the property located generally south of Interstate 440 and east and north of Springer Boulevard is requesting that the zoning for 29.71 acres be reclassified from R-2, Single-Family District, and R-3, Single-Family District, to OS, Open Space District.

**FISCAL IMPACT**

None.

**RECOMMENDATION**

Staff recommends approval of the requested zoning. The Commission voted to recommend approval of the rezoning. The vote was 8 ayes, 0 nays and 3 absent.

**BACKGROUND**

3M Company, the owner of several hundred acres of property located generally south of Interstate 440, and east and north of Springer Boulevard, is requesting to rezone 29.71 acres from R-2, Single-Family District, and R-3, Single-Family District, to OS, Open Space District.
The rezoning is proposed to provide open space buffer areas between the mining operation and nearby residential areas and a floodway area (Fourche Creek). The proposed zoning is divided into five (5) areas as follows:

- **Tract 1**: 6.56 acres, R-3 to OS
- **Tract 2**: 3.80 acres, R-3 to OS
- **Tract 3**: 2.49 acres, R-3 to OS
- **Tract 6**: 4.59 acres, R-2 to OS
- **Tract 7**: 12.27 acres, R-3 to OS

All of the areas proposed for rezoning are currently undeveloped, and most of the areas are tree-covered. Properties west of the proposed areas of rezoning are occupied by single family residences, a small park and undeveloped property. Fourche Creek and a railroad right-of-way are located along the north boundary of the overall property. Single-family residences, vacant lots and undeveloped property are located to the east. Single-family residences and a few mixed uses are located along Springer Boulevard to the south. The 3M Administrative Offices and Processing Plant are located within the southeast portion of the overall property owned by 3M.

The City’s Future Land Use Plan designates the areas proposed for rezoning as Park/Open Space (PK/OS) and Mining (M). The requested OS zoning does not require an amendment to the plan.

Staff is supportive of the requested rezoning. Staff views the request as reasonable. The five (5) areas proposed for OS zoning are located between existing and proposed areas of M zoning and single-family areas and Fourche Creek. The OS zoned areas are proposed to protect the residential areas from noise, dust, etc., generated by the mining operation, and to protect the integrity of Fourche Creek. Staff believes that with the 29.71 acres of OS zoning proposed, the overall zoning will have a minimal impact on the surround areas.

The Planning Commission reviewed this issue at its May 11, 2017, meeting, and there were four (4) concerned individuals present. All owners of property located within 200 feet of the site and the College Station Neighborhood Association were notified of the public hearing.
