Planning Division:

Land Use Plan:

The request is in Planning District 8, the Central City Planning District. The development principles of this district include strengthening the existing development and better define single-family and non-residential use areas by neighborhood oriented commercial uses. The Land Use Plan shows Residential Low Density (RL) use for the application area. The Residential Low Density (RL) category provides for single-family homes at densities not to exceed 6 dwelling units per acre. Such residential development is typically characterized by conventional single-family homes but may also include patio or garden homes and cluster homes, provided that the density remains less than 6 units per acre. The Land Use Plan shows for the application area. The application is for an STR-2.

North of the application area is I-630. East and west of the application area are areas designated Public/Institutional (PI) uses and are characterized by the Dr. Martin Luther King, Jr. Interdistrict Magnet Elementary School, Ninth Street Park, and Mount Zion Baptist Church. South of the application area is area designated for Residential Low Density (RL) uses and is characterized by single-family homes, duplexes, and triplexes/quadplexes.

This site is not located in an Overlay District.

S. Pulaski Street is a Local Street on the Master Street Plan. Local Streets are roads designed to provide access to adjacent property with the movement of traffic being a secondary purpose. The standard Right-of-way is 50'. Sidewalks are required on one side. This street may require dedication of right-of-way and may require street improvements.
