RESOLUTION 151

A RESOLUTION OF THE PLANNING COMMISSION OF THE CITY OF LITTLE ROCK, ARKANSAS IN SUPPORT OF THE GOALS AND OBJECTIVES OF THE SOUTH END IMPROVEMENT PLAN REVISION.

WHEREAS, South End Steering Committee reviewed the South End Neighborhood Plan, and;

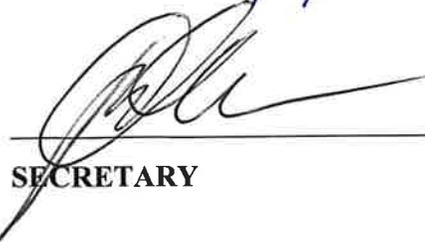

WHEREAS, after months of work by the Steering Committee, the Neighborhood Plan was reviewed with changes and updates, and;

WHEREAS, this Plan (Goals and Objectives) provides a way for both the neighborhood based groups and others working in and around the neighborhood to advance the desires and meet the needs of the residents.

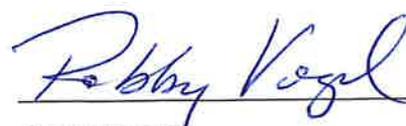

NOW, THEREFORE, BE IT RESOLVED BY THE PLANNING COMMISSION OF THE CITY OF LITTLE ROCK, ARKANSAS.

SECTION 1. The Planning Commission of the City of Little Rock does support the vision and goals as expressed in the South End Improvement Plan Revision.

ADOPTED: 12/8/2021

SOUTH END ACTION PLAN 2021

EXISTING CONDITIONS

INTRODUCTION

The South End Community has sustained the test of time. as the second oldest neighborhood in the City of Little Rock, it has a rich history of community involvement and historic preservation. It has gone from a once thriving business community to one of mainly homes, churches, and schools. It is now bouncing back as businesses are being revitalized, churches rebuilt, homes renovated, and new homes being built. South End is somewhat of a secluded community. The boundaries of the study area have not changed since the original South End Area Improvement Plan “A Neighborhood Action Plan” in May of 1999. It is anchored by the Arkansas State Fairgrounds to the west, Interstate 30 to the east, Roosevelt Road to the north and Interstate Park to the south. The neighborhood offers three city parks, a community garden, a boys and girls club, schools, churches, restaurants, a cultural center, and numerous small businesses.

The neighborhood is centrally located from downtown, allowing easy access to numerous services and amenities that the City of Little Rock has to offer. South End is within 10 to 15 minutes of Clinton Airport and the Little Rock Port Authority, Arkansas Children's Hospital, Central High School, colleges, museums, art and cultural centers, as well as downtown shopping, business offices, restaurants, and the River Market.

On January 21, 1999, a tornado altered the existing conditions of the neighborhood. The tornado resulted in the loss of housing stock and damaged long-standing businesses throughout the community. Before the tornado, the neighborhood had a housing stock of 2,242 units, and because of the tornado, some of the historic value of the South End Neighborhood was damaged or lost.

This tore into the fabric of the South End community. Families relocated, housing stock declined, and the neighborhood became blighted with boarded up houses, vacant lots and increased criminal activity. As a result, over the past 5 to 10 years, the South End Neighborhood has worked with the City of Little Rock in efforts to revitalize the community and continue to work vigorously with the Little Rock Police Department to deter crime. Statistically the criminal activities have drastically leveled off over the past 5 to 10 years.

With everything that has occurred, the South End Neighborhood continues to stand strong. It maintains its historic value with properties listed on the National and State Historic Registers. Success stories have been great, with the area producing many educators, professional athletes, entertainers, doctors, lawyers, public speakers, and a history of family business owners.

Although many residents of the recent past have reached retirement age, the community has been active in not only providing services for seniors but is recruiting younger families. Today's young professionals are choosing to stay in the neighborhood rather than move away to more exclusive areas because of the current high cost of living. Many are choosing to move back to stay in touch with their patients, clientele, and family members. The community continues to thrive and is attracting investors and residents with new construction, renovated homes and continued growth throughout the neighborhood.

SOUTH END ACTION PLAN 2021

The Census data referenced in this study is from the 1990, 2000, and 2010 decennial census. The data to compare for the 2020 census will not be available until after this study is finished. It was explored to compare numbers from the American Factfinder information provided by the Census Bureau. However, the smallest area that could be sampled included a portion of the Wright Avenue Neighborhood from Roosevelt to Wright Avenue and from Martin Luther King to the railroad tracks. To include this information would skew the results.

- This information will be added as an addendum when it is available. The census information from the 2004 Action plan does not reflect the progress and current environment of the South End Neighborhood. A better representation of the area will be available when the 2020 Census Demographics information is made complete.

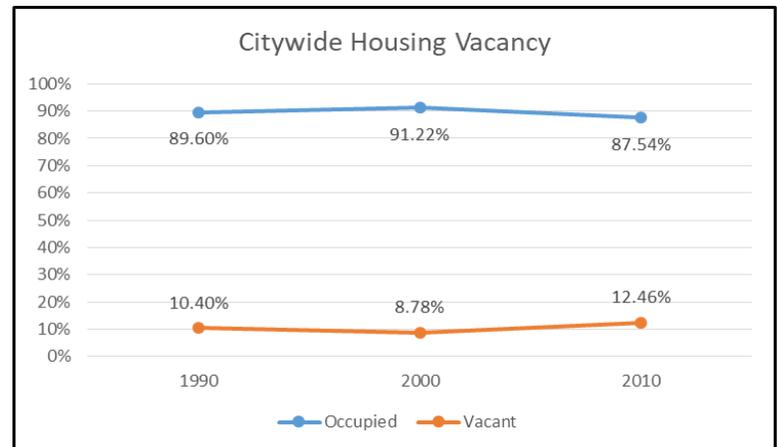

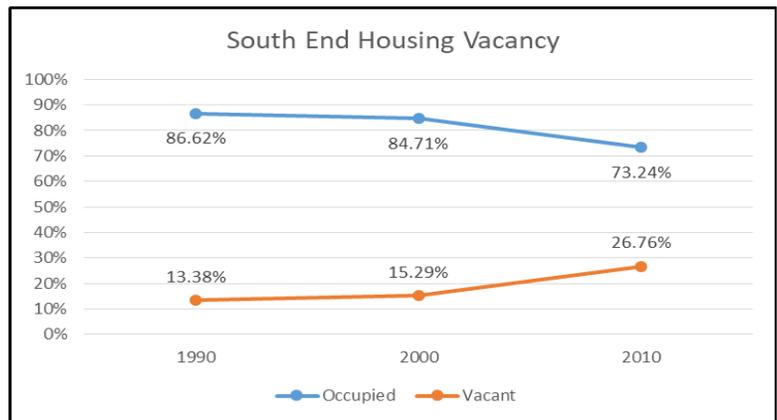

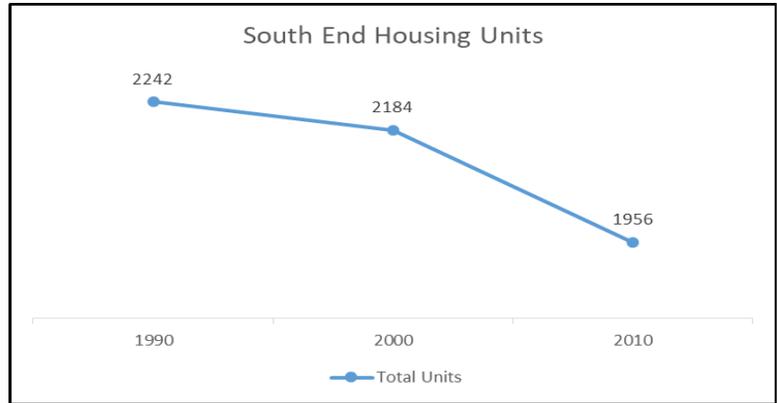

SOUTH END ACTION PLAN 2021

HOUSING TENURE

As the chart to the right shows, the South End area continues to lose housing stock over time. From a high of 2242 in 1990, the number of units have decreased to 1956 in the 2010 census. Since that time, additional structures have been demolished. According to building permit data, 142 additional structures have a demolition permit since January 2010 which a majority of them were housing units. These have been scattered throughout the study area. These 142 demolitions do not include the reconstruction of the formerly named Tuxedo Courts and Ives Park.

At the same time, vacant housing units, (houses and apartments), have increased in the neighborhood as shown in the chart to the right. In 1990, vacancy was at 13.38% or roughly one in seven housing units. In 2010, the rate was at 26.76% or roughly one in four housing units that are vacant.

Citywide, vacancy rates have also increased, but not at the same rate as shown in the chart to the right. In 1990, they were at 10.4% and in 2010 at 12.46%, a rise in 1.98%. South End vacancy rate increased 13.38% or doubled in the same amount of time. However, with the decreased number of units available, the actual number was not doubled. The numbers went from 300 to 518 vacant units from 1990 to 2010.

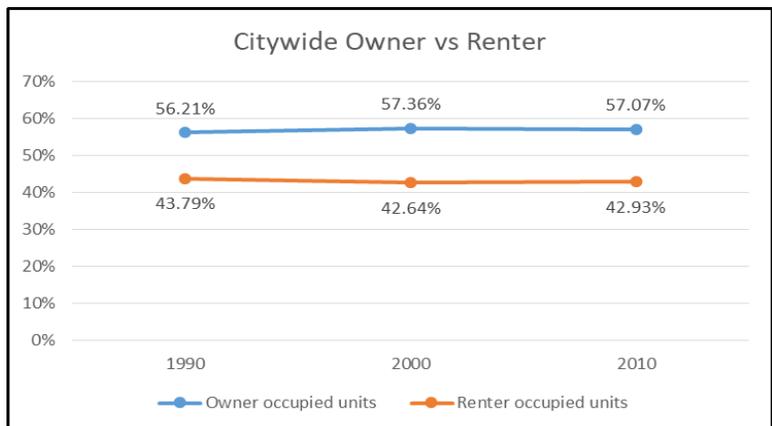

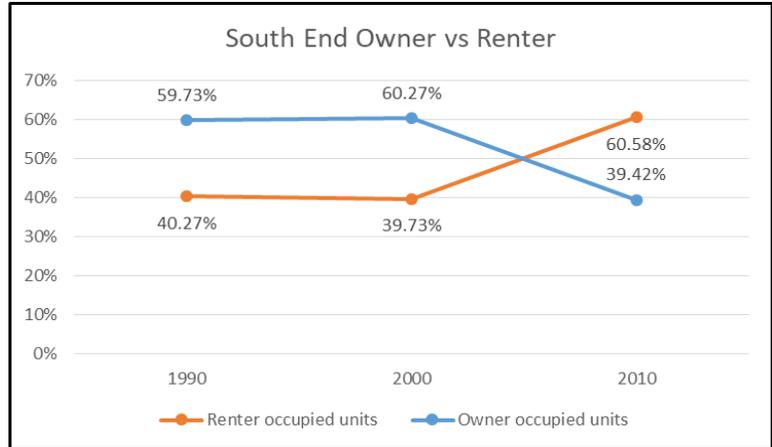

SOUTH END ACTION PLAN 2021

Most strikingly of all of the data is the change in occupancy, homeowner versus renter as shown in the chart to the right. In 1990, the mix was about 60-40 with homeowners being in the majority. In 2000, the numbers were roughly the same. However, in 2010, the numbers flipped with more renters than homeowners. The census does not give us a reason why this occurred. Probable causes could be the heirs renting out the houses instead of selling them or residents are leaving the neighborhood and keeping the house as rental property.

Citywide, the percentage of renters to owners occupying structures has remained virtually the same as shown in the chart to the right. Renter occupancy has decreased less than one percent (90.89%). The number of housing units in the City has increased over time and is still increasing, so the actual number of rental units has expanded.

The available census data for the housing tenure is from 1990, 2000, and 2010 decennial census. The data for comparison to the 2020 census will not be available until after this action plan is completed. To include the housing tenure census comparison for the above years would skew the results of this study. Therefore, the 2020 census for housing and demographics information will be added as an addendum when it becomes available.

SOUTH END ACTION PLAN 2021

BUILDING PERMITS

The following section concerning building permits since the last revision of the neighborhood action plan will contain building permits from January 2004 through June 30, 2021.

55 single family houses were permitted, an average of 2.73 per year from 2004-2 June 30, 2021. This is a decrease from the 13 permits for the previous 4 years (January 2000 – December 2003), an average of 4.33 the time frame immediately after the tornado of 1999. There was a building boom after the tornado of 1999.

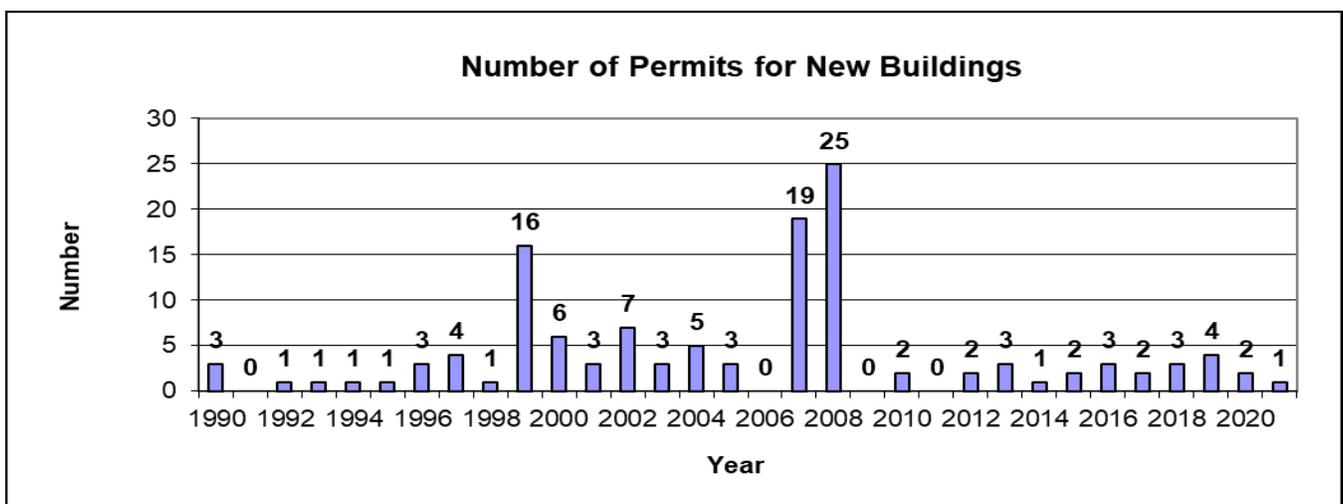

During the study period, there were 36 additions to single family homes versus the 16 in the previous four years. Also, during the study period, there were 546 permits for renovations to existing homes. Of those renovation permits, 166 were “bring to code” permits, 74 were CDBG projects, 23 were exterior remodels, 24 were due to fire damage, 85 were classified as general remodel and 64 were interior remodel.

31 permits were issued for accessory buildings (sheds, detached garages, etc) at residential and non-residential sites.

On multi-family permits, the construction of Metropolitan Village and Cumberland Manor accounted for 120 units. There was one permit for the construction of a duplex and three permits for demolition of two duplexes. 14 permits were issued for renovation of duplexes and multi-family buildings.

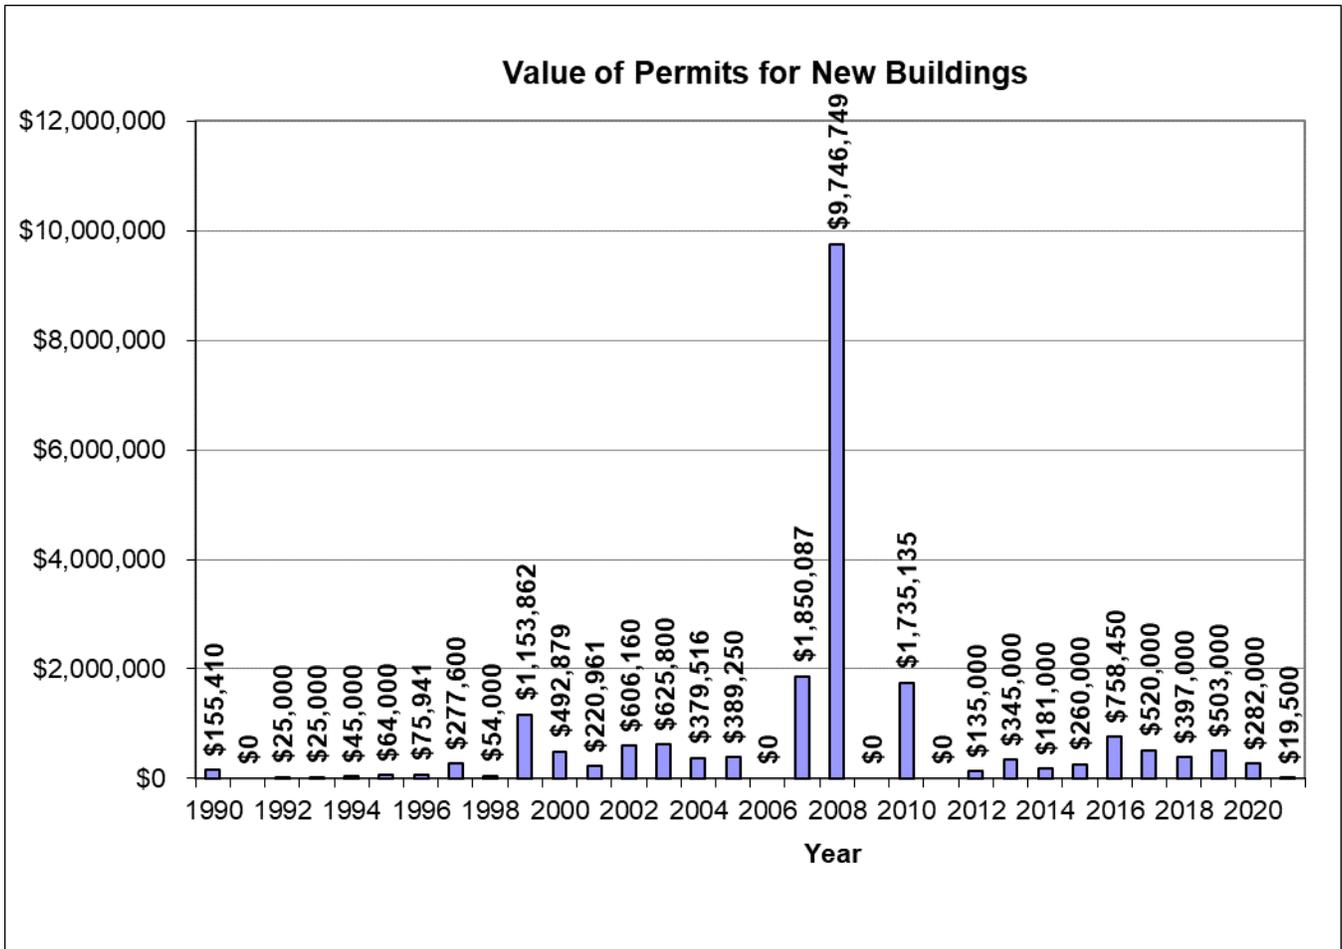

On non-residential permits, there were 3 permits issued for construction of office buildings and 2 permits for commercial buildings. There were four permits issued for renovation of existing offices while there were five permits for additions to commercial structures, three demolitions and 15 renovations of commercial structures.

There are noticeable spikes in the charts below in certain years. See text under the charts for notations.

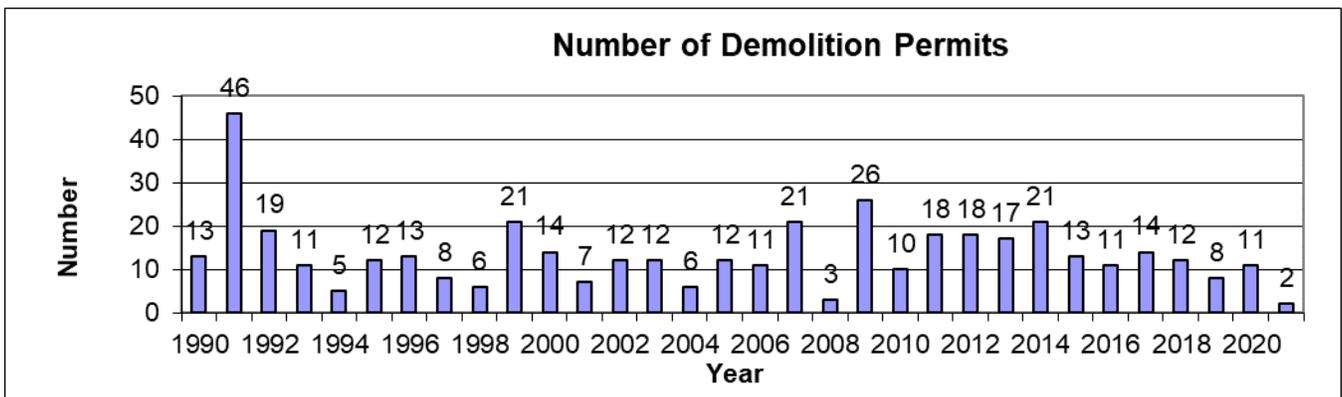

17 permits in 2007 was for the rebuilding of Ives Walk. 24 permits in 2008 was a result of the rebuilding of the former Tuxedo Courts into the Metropolitan Village and Cumberland Manor.

SOUTH END ACTION PLAN 2021

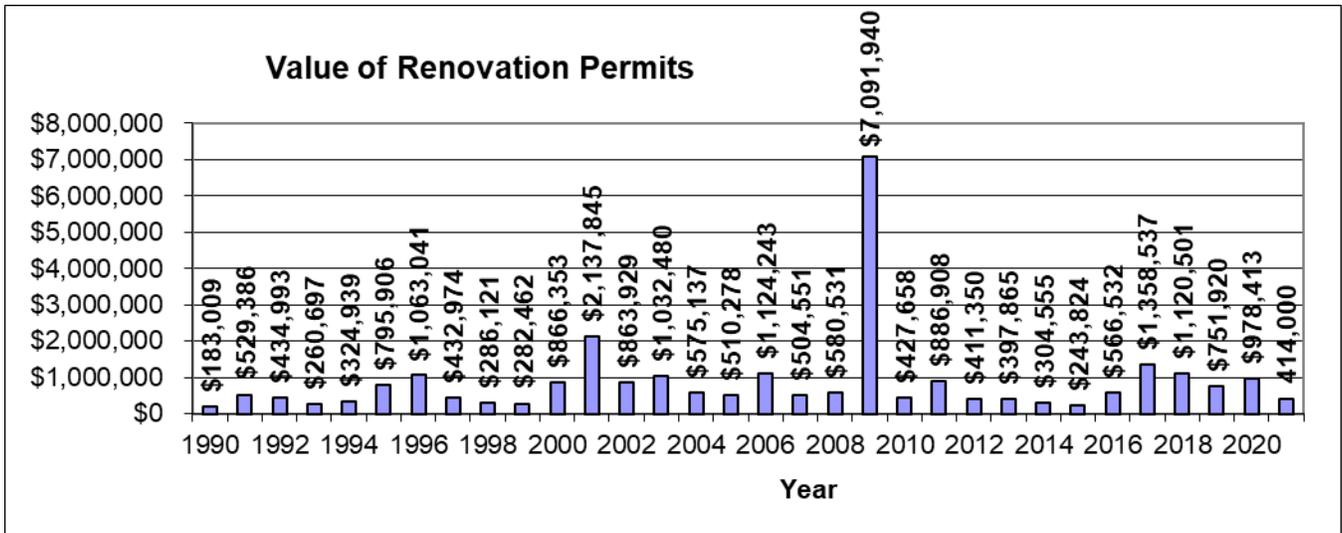

The spike in value of permits issued in 2008 was a result of the rebuilding of the former Tuxedo Courts into the Metropolitan Village and Cumberland Manor.

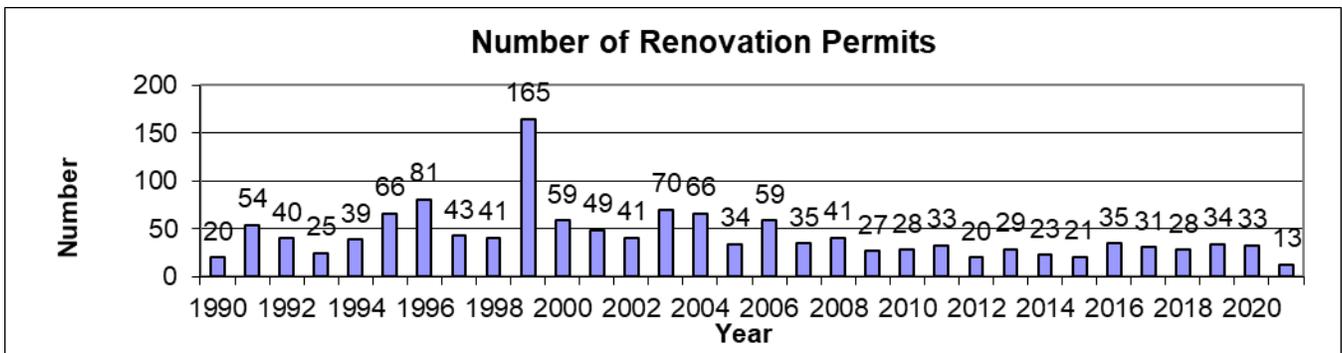

There were 420 demolition permits from 1990 through 2 June 30, 2021 based on building permits. The spike in demolitions in 2007 was for the rebuilding of the former Tuxedo Courts into the Metropolitan Village and Cumberland Manor.

SOUTH END ACTION PLAN 2021

In May 2009, a renovation permit was issued for \$6,774,390 for work at 4000 Arch Street for Interstate Park improvements.

The spike in 1999 was for renovations after the tornado in early Spring 1999.

SOUTH END ACTION PLAN 2021

ZONING AND FUTURE LAND USE

Board of Adjustment items:

Since the last revision in 2004, three Board of adjustment issues for residential additions or new houses with reduced setbacks were approved.

Zoning Items:

Eight Conditional Use Permits (CUP) were granted for church related expansions and new construction. One CUP was approved for each of the following uses: a multisectional manufactured home, a museum, a food store under 5000 sf with sales of beer and wine, a day care, and one adult day care.

One CUP for a correctional facility and one CUP for a daycare was denied by the Planning Commission. Three CUPs were withdrawn, two concerning construction of residential duplexes and one for a daycare.

Two Special Use Permits were issued to run a daycare in a single-family house and five tower use permits were issued concerning mobile phone towers and expansions.

Nine planned commercial districts and two planned office districts were approved since 2004 along the Roosevelt, Arch and Broadway corridors. Four planned residential districts were approved: three for the redevelopment of Tuxedo Court and Ives Walk and one for elderly housing associated with a church.

Future Land Use Plan items:

The first three items (Ordinances 21,708, 21,011, and 20,469) were products of area wide reviews initiated by Planning Staff where most of the changes made are to recognize existing uses or existing zoning.

Ordinance 21,708 of March 19, 2019, changed the following area:

- An area south of Roosevelt Road at Pulaski Street was changed from Residential Low Density to Commercial.

Ordinance 21,011 of March 17, 2015, changed the following areas:

- An area northwest of 26th and Schiller was changed from Residential Low Density to Public Institutional.
- An area west of Ringo at 30th Street was changed from Park Open Space to Residential Low Density.
- An area south of 33rd from Fulton to Iward Street is changed from Residential Low Density to Park Open Space.
- An area either side of Riffel Street south of 32nd Street was changed from Residential Low Density to Public Institutional.
- An area north of 34th from Gaines to Arch Street was changed from Mixed Use to Public Institutional.
- An area south of Roosevelt from Louisiana to Main Street was changed from Mixed Use to Public Institutional.

SOUTH END ACTION PLAN 2021

Ordinance 20,469 of September 20, 2011 changed the following areas:

- An area at the southwest corner of 29th and Interstate 30 was changed from Commercial to Residential Low Density.

The following two changes were initiated by the redevelopment of Ives Walk and Tuxedo Court. Ordinance 19,616 of October 17, 2006, changed the following area:

- An area along Ives Walk was changed from Multi-family to Single Family.

Ordinance 19,494 of February 21, 2006, changed the following area:

- An area south of 29th between Main and Martell was changed from Single Family to Multi-family.

See maps of the approved ordinances starting on page 70. Only the graphics for the changes within the study area were included.

SELECTED DEFINITIONS OF FUTURE LAND USE CATEGORIES

Residential Low Density- RL (formerly Single Family SF)

This category provides for single family homes at densities not to exceed 6 dwelling units per acre. Such residential development is typically characterized by conventional single family homes but may also include patio or garden homes and cluster homes, provided that the density remain less than 6 units per acre.

Residential High Density – RH (formerly Multi Family MF)

This category accommodates residential development of more than twelve (12) dwelling units per acre.

Mixed Use - MX

This category provides for a mixture of residential, office and commercial uses to occur. A Planned Zoning District is required if the use is entirely office or commercial or if the use is a mixture of the three.

Commercial - C

The commercial category includes a broad range of retail and wholesale sales of products, personal and professional services, and general business activities. Commercial activities vary in type and scale, depending on the trade area that they serve.

Park/Open Space - PK/OS

This category includes all public parks, recreation facilities, greenbelts, flood plains, and other designated open space and recreational land.

Public/Institutional - PI

This category includes public and quasi-public facilities that provide a variety of services to the community such as schools, libraries, fire stations, churches, utility substations, and hospitals.

SOUTH END ACTION PLAN 2021

INFRASTRUCTURE

In November 2011, the citizens of Little Rock voted for a temporary 3/8 cent sales tax increase for 10 years and also to extend a 3 mil property tax for street and drainage improvements. The sales tax went to fund the sale of bonds to complete projects city-wide.

Below is a list of projects that have been completed or are scheduled to be completed.

The Sales tax and Bond projects 2013-2015 provided resurfacing portions of the following streets: 28th, 31st, 33rd, 35th, Main, Marshall, Spring, Summit, and Wolfe Streets.

Another project in that cycle was along Martin Luther King to capture water from running spring on west side of MLK from 28th to 30th Streets.

The Sales tax and Bond projects 2016-2018 provided resurfacing portions of the following street: South Main Street. Cross and Ringo Streets were also resurfaced out of a different project.

Another project in that cycle was to reconstruct Whitmore Circle beginning at 34th Street and around the loop which was completed in 2019.

The Sales tax and Bond projects 2019-2021 provided resurfacing portions of the following streets: Scheduled to be completed are Gaines, Cross, and Ringo Streets.

Other projects scheduled to be completed is a sidewalk along Marshall Street from Roosevelt to the southern terminus and to repair or replace old culverts along the Swaggerty Creek drainage from Roosevelt to 31st Street.

		
<p><i>Arch Street Bridge was replaced with a different alignment.</i></p>	<p><i>Looking south from under bridge at City Parks storage area.</i></p>	<p><i>Arch street bridge pylon in 2011 with original date of construction of 1940.</i></p>

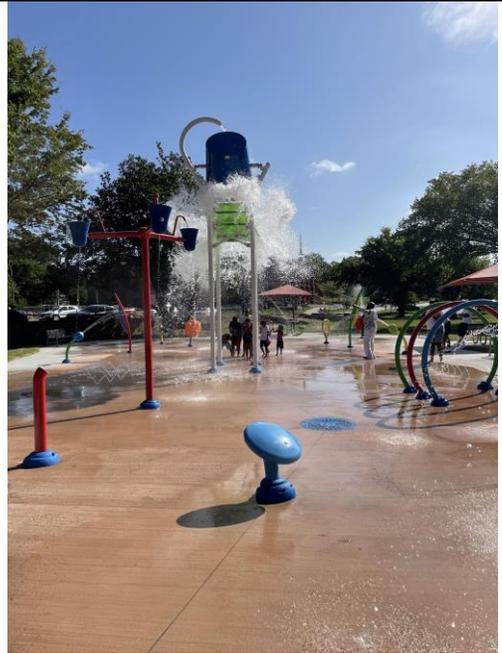

SOUTH END ACTION PLAN 2021

PARK SYSTEM

In November 2011, the citizens of Little Rock voted for a temporary 3/8 cent sales tax increase for 10 years and also to extend a 3 mil property tax for street and drainage improvements. The sales tax went to fund the sale of bonds to complete projects city-wide. A portion of this money is devoted to improvements in Crump Park including the addition of a splash pad.

Plans for Crump Park Splash pad.

A giant bucket of water spills onto the play area on Opening Day – August 28, 2021.

Benches and shade structures are provided.

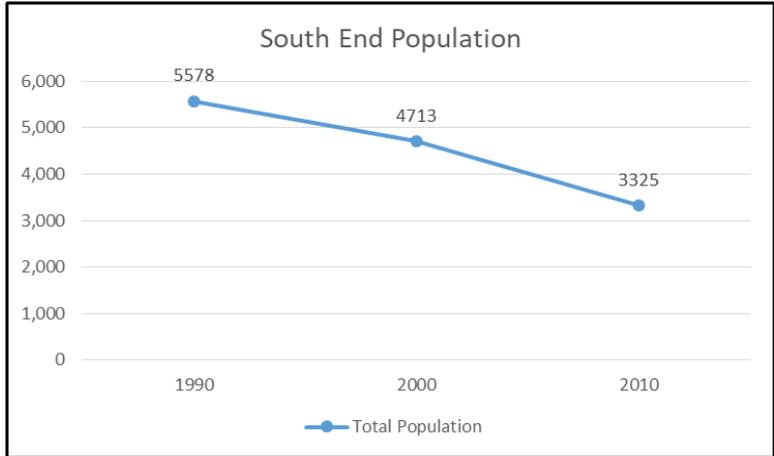

A child enjoys the splash pad while an adult watches.

SOUTH END ACTION PLAN 2021

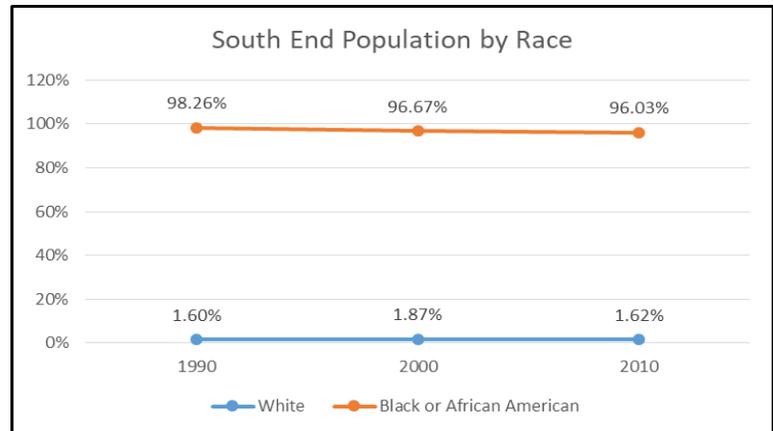

SOCIO-ECONOMIC CONDITIONS

The population of the South End area has steadily decreased in the study period as shown in the chart on the right. In 1990, the population was at 5,578 while in 2010, it was at 3,325, a loss of 40%. The mix of males and females has stayed constant, with females making the majority at 56% in 1990 and falling at a steady rate to 54% in 2010. The neighborhood has seen that there has been an increase with the new houses being built and vacant houses being occupied. The 2020 census data was not available at the time of this printing.

South End population distribution has also remained consistent with 98.26% Black or African American in 1990 to 96.03% in 2010. The city as a whole has 51.4% white, 42.4% Black or African American, and 2.5% Asian. The city as a whole also has 6.4% Hispanic while the South End has one-tenth of one percent in 2010.

For the most part the population of the South End has declined and experienced a net loss of housing stock which typically go hand in hand. However, the number of permits issued to repair or renovate housing since the last update provides evidence of the commitment by area residents to the preservation of the neighborhood.

The 2020 Census Demographics were not available at the time of this study. An addendum will be added showing the updated 2020 census information when it becomes available.

SOUTH END ACTION PLAN 2021

GOALS AND OBJECTIVES:

#1 INFRASTRUCTURE GOAL:

Coordinate with Public Works to improve condition of infrastructure.

Objective: Work with city to implement the following drainage improvements.

- Clean and improve drainage in Swaggerty Creek basin south of Roosevelt boundaries.
- Schedule regular maintenance of Swaggerty Creek.
- Repair and clean all ditches, ravines and drainage systems that flood throughout the South End Community.

Objective: Work with city to implement the following street and alley improvements.

- Build a retaining wall between alley and creek between Bishop, Marshall, 34th, and 35th Streets.
- Create, build and repair all curbs and gutters throughout the South End Community.
- Repair and pave and provide lighting in all alley ways throughout the South End Community.
- Make sidewalks safe for pedestrians by repairing and/or replacing sidewalks in disrepair and install sidewalks where there are none.

Objective: Work with city and Entergy to implement the following street light improvements.

- A complete analysis needs to be done by the City of Little Rock and Entergy to correct and improve our lighting system throughout the South End.
- Provide LED street lighting and additional fixtures for better efficiency.
- Need assessment and accountability by Urban Forestry to develop a Maintenance Plan for overgrown tree limbs and tree removal.

Objective: Elevate the standards of the infrastructure in our neighborhood to acceptable standards

- Schedule regular number of days for street sweeper to remove debris throughout the South End.
- City of Little Rock needs to invest in more street sweepers in order to enhance the appearance of the South End and/or the Greater Little Rock Communities.
- Implement an ordinance for brush, bulk items, and curbside debris pickup on a regular scheduled basis without having to call “311”. **(IF IT’S OUT THERE PICK IT UP)**

SOUTH END ACTION PLAN 2021

New sidewalks at 28th and Marshall Streets.

New sidewalks at 27th and Marshall Streets.

Whitmore Circle before with no curbs.

Whitmore Circle after with curbs.

In the Plan and Completed.

SOUTH END ACTION PLAN 2021

New storm drain facilities.

Whitmore Circle after with curbs.

Cross Street from Roosevelt south in process of being repaved.

SOUTH END ACTION PLAN 2021

#2 HOUSING GOAL:

Improve the housing stock of the neighborhood, both Rental and Owner occupied.

Objective: Repair, renovate and increase maintenance on housing stock that can be occupied

- The city of Little Rock should work with state and local government to adopt and pass legislation for Landlord-Tenant Laws for Arkansas
- Rehabilitate vacant housing to filter unwanted activities (**drugs, etc.**) to help eliminate blight throughout the South End.
- Need an Ecological Study done in the overgrown hillside area between 28th MLK and 30th MLK that has saturated soil ground caused by water problems that is dangerous. This section desperately needs attention so that homes can be built on this scenic hillside.
- Repair houses before they qualify for demolition.
- Codes and ordinance must be enforced to protect and save our community.
- Renovate housing as opposed to demolition. This will increase the housing stock and will save some of the historic value of the South End.
- Make single family houses affordable for potential homeowners
- Enforce all codes and ordinance violations, such as, no cars on lawns or abandoned or non-working cars on the street.
- Enforce maximum number of cars parked on side of house lawn and not in a paved or gravel driveway.
- Vacant houses and rental property upkeep according to code.

Objective: Utilize existing programs for home repair and home ownership

- We need a comprehensive housing program to provide repairs and renovation for homeowners that are disabled, senior citizens and low income families.
- Reconstruct those homes that have historic values throughout the South End Community.
- All dilapidated and abandoned houses near interstate 30 (I-30) need to be fixed and homeowners educated that there are grant funds available.
- 26th and Rock Street – I-30 and Frontage Road to the railroad need to be renovated. **(THIS IS A BAD REFLECTION FOR THE CITY OF LITTLE ROCK AND FOR THE TRAVELERS ON I-30)**

Objective: Work to introduce new housing stock into the South End Neighborhood Community

- Need a Senior Citizen Retirement Complex for those who would love to stay in the South End community. Not disabled or families but Senior Citizens **ONLY**.
- All Landlords, renters, and resident owners need to be held responsible for upkeep and maintenance of their properties.

Objective: Improve the overall appearance of the South End Community through proper building and ground maintenance.

- The existing ordinances should be enforced to its full potential for all residents to keep their properties clean and clear of trash, household furniture on porches and in yards.

SOUTH END ACTION PLAN 2021

- Review to change any ordinance so that right of ways and alleys beyond the property line of a residence that the city owns and is responsible for should be maintained by the city on a regularly scheduled basis.

Objective: Beautify the neighborhood through the South End Community and individual efforts

- Hold landlords accountable for the actions of renters when there is excessive loud noise, drugs, gangs and violence associated with the property. Need stricter fines through the code enforcement on the upkeep of property.
- Hold landlords accountable to keep up their property. Establish Landlord and Rental Laws to be followed by landowners and renters.

2904 Gaines on left has been recently renovated.

Historic home with potential at 2905 S Gaines.

3104 Gaines Street is an older house.

3104 Gaines Street shows new construction.

SOUTH END ACTION PLAN 2021

3022 on right and 3020 S Main are new homes in the neighborhood.

3023 S Main was under construction.

Tuxedo Court renovations.

New homes on Horizon Lane.

This was built in 1945 as housing for Veterans. The patio and front porch were added in 2020.

Tract Veteran's homes built in 1945 for returning Black Veterans returning from World War II. These were in the 3100 and 3200 blocks of Spring and Center Streets and the 300 and 400 block of West 33rd Street.

SOUTH END ACTION PLAN 2021

#3 ECONOMIC DEVELOPMENT GOAL:

Encourage economic development in the area.

Objective: Attract New Businesses to the South End Community.

- To establish businesses on south of Roosevelt Road that includes a Center for the elders, a Pharmacy, Hardware Store, Restaurants, and Health Care Clinic.
- Established businesses in the South End will improve job opportunities.
- There is a need for an Educational Facility to promote job training, Health wellness, Budget Preparedness, and everyday life skills.

Objective: Initiate or explore job-training programs to train local residents

- Utilization of the Dr. Martin Luther King Jr. Heritage Center at 3102 Dr. Martin Luther King Boulevard, as originally designed to offer programs that will enhance the neighborhood. There should be programs at the Dr. Martin Luther King Jr. Heritage Center to prepare citizens for the work force (Computer Classes, Health Classes and etc.).
- Neighborhood programs to teach job skills. Provide literacy training for children, teens and young adults. Work with recently closed Boys and Girls Club and United Way to provide programs for seniors, children, and all area residents.

Objective: Improve the overall appearance of the neighborhood through proper building and grounds maintenance.

- Based on municipal code, enforce upon existing businesses to take ownership and make needed repairs to both the inside and outside of their properties.

Objective: Beautify the neighborhood through community and individual efforts.

A new business in the neighborhood.

New Business at 1423 W Roosevelt.

SOUTH END ACTION PLAN 2021

The First Class Car wash on Roosevelt at Rock Street renovated an existing use.

Newer construction of retail at 415 E Roosevelt Road.

Willard Procter, Jr. P.A. Law Offices at 2500 S State Street.

The Murphy Jeffries building, currently being renovated, is a potential location for new business.

The Humphrey Store at 2901 S Wolfe Street.

2510 S Arch Street (left) has been renovated by owner Deryan Coleman and a new parking lot installed. 2008 Arch (right) has been recently renovated.

SOUTH END ACTION PLAN 2021

#4 PARKS AND RECREATION GOAL:

Promote better and safer park facilities for the community.

Objective: Work to implement improvements in area parks.

- Continue to implement the Crump Park Master Plan that was allocated by the ½ cent Tax Bill.
- Continue with the original Splash Pad Plan and the other amenities in its current location.
- Need walking trails connecting the South Side, Crump and Interstate Parks with sufficient lighting.
- Provide a new facility for neighborhood programs to teach job skills, computer classes, health Classes, Programs for senior citizens, young adults, and children.
- In all South End Neighborhood Parks Bike Trails, walking areas, conversation areas, playgrounds and picnic areas. Seek property in area that can be developed, water parks/splash pad. Upgrade the existing parks first
- Police patrol is needed in all South End Parks.
- Name the Southside football field after Couch Ed Johnson.
- Upgrade the “Entrance” and “Exit” of Southside Park.
- Need a developed walking trail.
- Provide for accessible parking in South Side Park.
- Add bleachers where needed.
- Park need to be elevated to prevent flooding
- Install drainage system to run off water.
- Upgrade Lighting System in South Side Park.
- Buildings owned or bought by the taxpayer’s money should be publicly announced before donating and/or sold to a private person or organization.
- Add Wi-Fi capabilities.
- Install security camera in all parks.

Objective: Maintain existing parks at a higher level than the present

Objective: Reduce crime in park areas.

Objective: Explore funding opportunities to start programs to assist youths.

- There should be more parks and programs funded by the city to provide physical, educational activities for all children at no cost.

Objective: Acquire more parkland for residents in the Northeast Section of the study area.

Crump Park.

Southside Park.

Kids playing in the park.

SOUTH END ACTION PLAN 2021

The Dubisson Tigers, September 11, 1936. Courtesy of the Mosaic Templars Cultural Center.

Crump Park aerial photo from 1943. Arch street bridge on far right. This was the home of the Negro League.

Daniel Joy Dubisson, born September 28th, 1872, in Franklin, TN, was a Negro baseball executive. He was the part owner of the Little Rock Grays and the sponsor of the Dubisson Tigers.

Dubisson was the son of John Dubisson and Elizabeth (nee Johnson) Dubisson. John was a former slave, a carpenter, and a soldier in the Union Army during the Civil War. Daniel Dubisson grew up in Franklin, TN, but later moved to Little Rock, AR, where he became a mortician and the proprietor of a funeral home in 1915.

Daniel Joy Dubisson

In 1932, Dubisson became a part owner of the Little Rock Grays, a baseball team in the Negro Southern League. In 1933, he began his own semi-pro Negro team known as the Dubisson Tigers. The team was sponsored by Dubisson's Funeral Home and played regional competition, including Claybrook Tigers, St. Louis Stars, New Orleans Black Pelicans, and Shreveport Tigers. The Tigers operated until 1941 before being broken up by World War I. After the war, the team essentially became the C and C Hotel Stars in 1947.

Dubisson died July 10th, 1952, in Little Rock, AR and was buried in Haven of Rest Cemetery.

Copied from arkbaseball.com

His house at 1500 S Ringo Street is on the National Register of Historic Places and is currently known as the Alpha House for the fraternity that owns it.

SOUTH END ACTION PLAN 2021

#5 CRIME REDUCTION GOAL:

Improve Public Safety and decrease crime.

Objective: Neighborhood residents should actively work to prevent crime in their areas.

Objective: Work with the Little Rock Police Department to enforce laws and reduce crime.

- More police patrol of parks activities during afternoon and evening hours.
- Need police to patrol the South End Community late at night to enforce the ordinances against illegal activities such as, drugs and prostitution.
- Enforce stricter rules on pet owners, such as, the maximum number of dogs, cats per household.
- Animal Control need to be more visible in the South End Community.
- Police Officers need additional training in the areas of Psychological and Disability Training.
- Racial Profiling need to be prohibited in all Communities.
- Police Communication Relationship Programs should be implemented throughout the South End Community.
- Added security cameras and lighting will help combat some crimes that take place in poorly lit places.
- Sponsor crime prevention workshops with youth and educate the neighbors on laws, ordinances, and city codes (Abandonment of property, parking of cars, etc.)
- Encourage neighbors to call 311 or 911 if they see concerning issues or violations.

Objective: Control stray animals and eliminate packs of wild dogs.

- More animal control for stray cats and dogs.

Objective: Work to revise or create ordinances that protect people who rent housing or live by housing that has been recently a site of gunfire or firearm attacks.

- Adopt a city ordinance to govern the rental of houses that have had incidents of gunfire or firearm attacks.
- Establish the responsibilities that the landlord of these properties has to new renters. Is the landlord required to tell the new renters of previous activity at the house? Do new tenants face more stringent work history or credit requirements? Are background checks required? Is there scrutiny regarding occupancy by known criminal offenders?
- Update the Public Nuisance Ordinance to include best practices from other cities.
- Establish a City of Little Rock Communication system policy (written or oral) to inform citizens living close to houses that have been recently targeted by firearms or drive by shootings.

SOUTH END ACTION PLAN 2021

Crime Watch sign.

SOUTH END ACTION PLAN 2021

#6 SOCIAL SERVICES GOAL:

Provide needed social services within the neighborhood for area residents.

Objective: Medical Facilities to provide services for all citizens in the South End which includes Senior Citizens, Youth, Adults and the Disabled Adults.

- Develop a Health and Wellness Clinic that will serve as a location for “Developing Life Skills
 - a. Work Values
 - b. Time Management
 - c. Personal Value
 - d. Decision Making / Conflict Resolution
- Building Character
 - a. Good Citizenship and Integrity
 - b. Building Self-Esteem
- Financial Literacy
 - a. Wills and Living Trust Management
 - b. Budget Management
 - c. Taking risks
- Assistance with Utility Services.
- Counseling for Social needs
- Programs for Youth and Family Counseling
- Develop Safety Education for the home
- The Family roles and responsibilities
- A Police Substation within the facility
- The facility needs to be able to house a Senior Citizen Social Day Care.

Objective: Achieve the total utilization of the Resource Center.

- A Senior Citizen Retirement Complex for those who would love to stay in the South End Community and not have to leave the community. For Senior Citizens **ONLY (55+ years)**
- Network with churches regarding food banks and clothing distributions.

Thrasher Boys and Girls Club.

SOUTH END ACTION PLAN 2021

Volunteers at the Crump Community Garden promoting community gardens.

A bountiful crop.

Neighbors are given one dozen fresh eggs as they area collect ed. Dorothy Brown manages the Chickens.

The community garden gives away fresh produce to the entire community focusing on seniors, disable and single families. This is part of the 2021 harvest.

Harmony Health Clinic on Roosevelt Road.

The Arkansas Enterprise for the Developmentally Disabled at 201 E Roosevelt Road.

SOUTH END ACTION PLAN 2021

#7 EXISTING LAND USE AND RENTAL PROPERTY GOAL:

Improve our neighborhood through zoning controls.

Objective: Work with planning staff to improve existing neighborhood

- Ordinances should be enforced to its full potential for all residents to keep their properties clean and clear of trash, household furniture on porches and in yards.
- Attempts can be made to use vacant properties by attracting new developments
- Landlords must be made accountable by enacting stricter laws regarding property upkeep.
- Establish Landlord and rental Laws to be followed by landowners and renters.
- Little Rock Arkansas Code Ordinances for renter Inspection should be enforced.
- Total revitalization of MLK and the South End Community with home and businesses.
- Dr. Martin Luther King Jr. Heritage Center and the artesian spring are part of the Historical Museum for the pioneers of the South End.

Objective: Work to revise or create ordinances that protect people who rent housing or live by housing that has been recently a site of gunfire or firearm attacks.

- Adopt a city ordinance to govern the rental of houses that have had incidents of gunfire or firearm attacks.
- Establish what responsibility that the landlord of these properties has to new renters. Is the landlord required to tell the new renters of previous activity at the house? Do new tenants face more stringent work history or credit requirements? Are background checks required? Is there scrutiny regarding occupancy by known criminal offenders?
- Update the Public Nuisance Ordinance to include best practices from other cities.
- Establish a City of Little Rock Communication system policy (written or oral) to inform citizens living close to houses that have been recently targeted by firearms or drive by shootings.

SOUTH END ACTION PLAN 2021

The SENAC, Inc (South End Neighborhood Association Coalition, Inc.) received an Award of Excellence for Litter Prevention/Control “Great American Cleanup – Let’s Paint Up” presented by Keep Arkansas Beautiful in 2006. The project was located and completed at 2906 S Scott Street.

Services were completed and donated by Volunteers: They built steps, handrails, replaced rotten wood and rebuilt window screens, scraped paint and painted the home.

- Donald Rowe, local business person, donated and installed the plate glass for the broken picture window.
- Isaac Ross, a local electrician (who returned to his childhood neighborhood), installed the outside light fixtures.
- Little Rock Job Corp Maintenance and Rehab Program partnered with SENAC to do woodwork and masonry work.

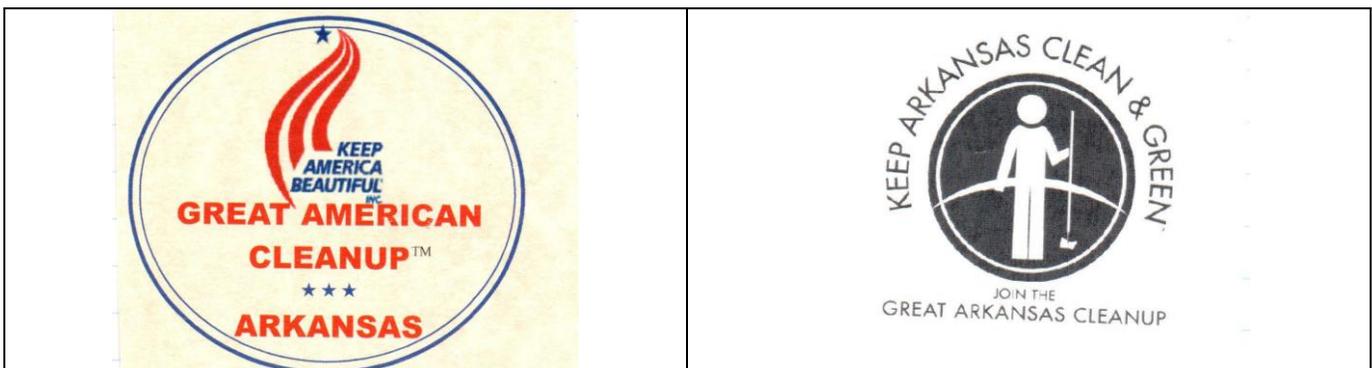

SENAC members were involved in securing support staff of Keep Arkansas Beautiful, City official, local churches, and businesses.

The Litter Project provided litter awareness prevention for the citizens in the area. As a result, street captains are now addressing certain target areas. This project provided positive image for an 86 year old lady to remain in her home and enhanced the community outlook for the future.

There is an on-going Litter Prevention Committee that meets once a month to address beautification issues.

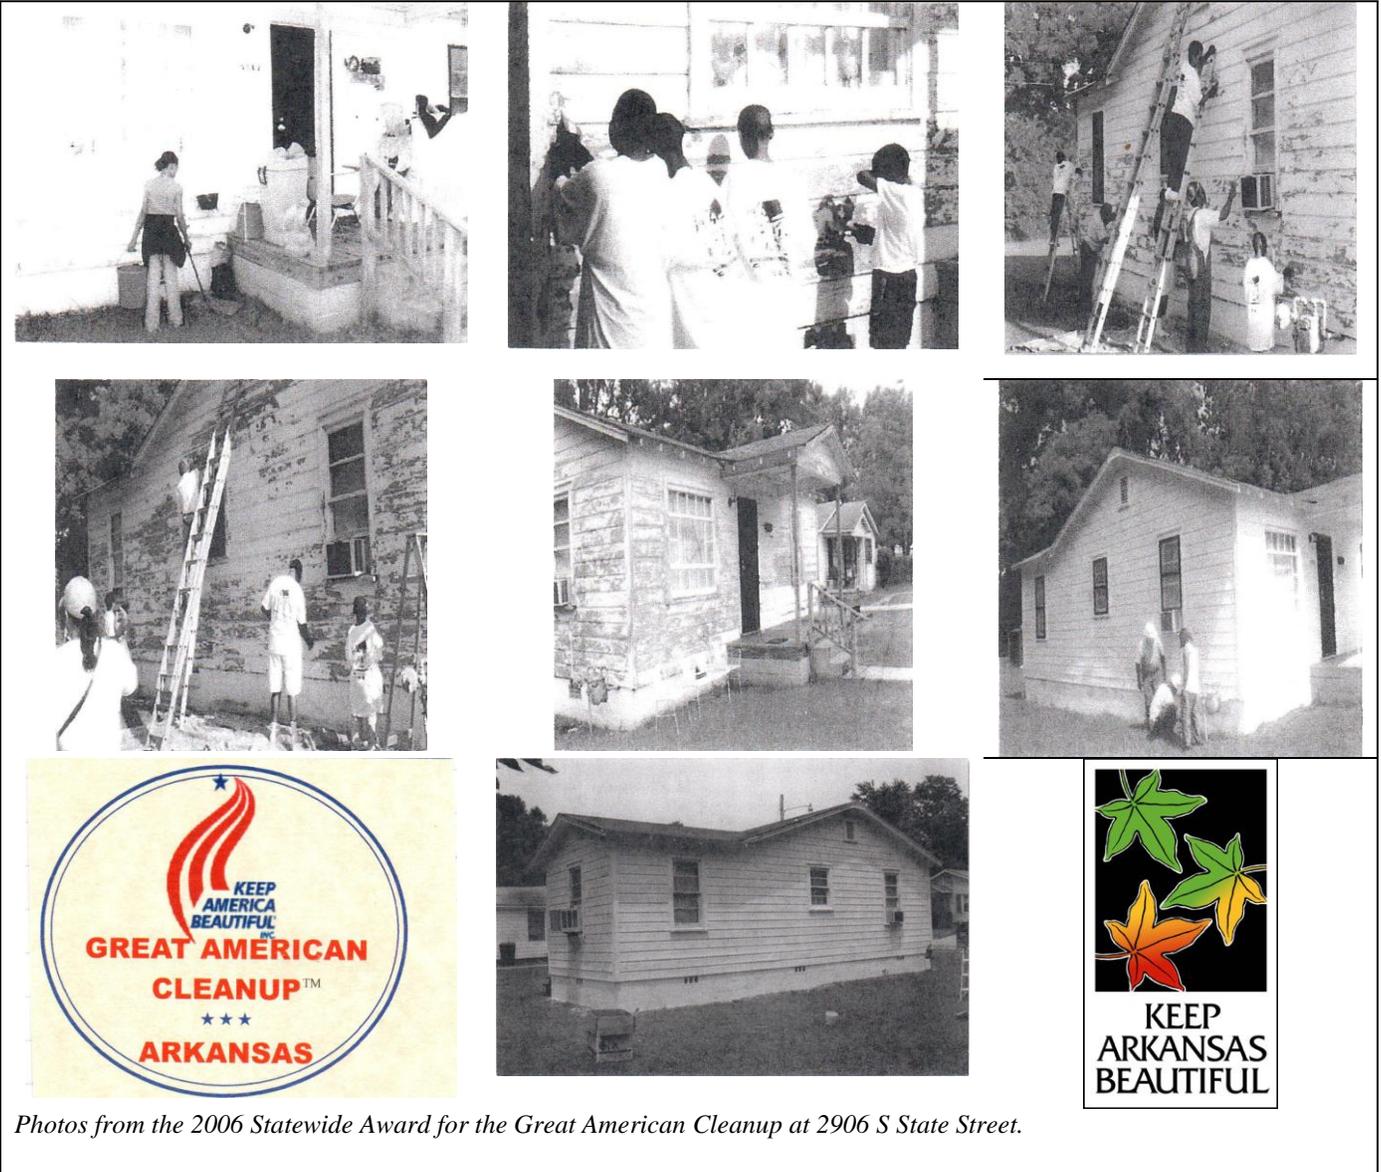

The Coalition was saluted for their pride, spirit, and effort demonstrated in producing such an outstanding achievement. This was also a commitment SENAC made in the South End Area Improvement Plans of May 1999 and July 2004. In the May 1999 plan, the neighborhood involvement goal was to revitalize our neighborhood through increased maintenance of existing structures, through beautification projects and building neighborhood pride. In the July 2004 plan, the objective was to beautify the neighborhood through community and individual efforts by sponsoring area wide cleanup days of problem spots. Also, work with volunteer groups for area wide cleanups of the neighborhood.

In the spring of each year, SENAC has successfully completed 18 Great American cleanups. SENAC has also successfully completed 18 Great Arkansas cleanups in the fall of each year. Emergency cleanups have been completed in certain areas as needed.

SOUTH END ACTION PLAN 2021

SOUTH END ACTION PLAN 2021

The 2006 Statewide Award for Excellence awarded to SENAC.

SOUTH END ACTION PLAN 2021

#8 HISTORY GOAL:

Establish and document the full history of the South End.

Objective: To work with The Butler Center for Arkansas Studies to research when the South End was developed and established

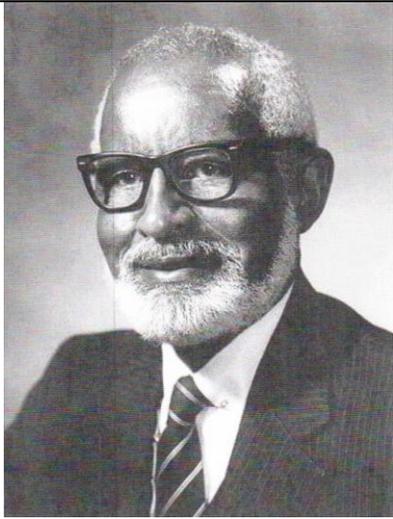

- When was the South End developed and established?
- Who were the people who first settled in the South End?
- History of the Historical Sites
- Historical people that came out of the South End
- History of the first South End Association.
- To have all the historical sites listed under the State and National Historical Registrar regardless of the condition and to be restored when funds are available.
- Contact people who came from the South End to give a narrative for the history of the South End.
- Create a “Wall of Fame” along MLK at the house and the area next to the Dr. Martin Luther King Jr. Heritage Center and the artesian spring
- Research for churches that are 100+ years that are still active.
- Explore “Veteran’s Houses” in the area of Center, Spring, 29th – 31st Streets as a historic district. Research builders, occupants, and if there was a specific program to build them.
- Explore mid-century modern houses in the 3700 block of High Street as a historic district. Research builders, occupants, and if there was a specific program to build them.

Objective: Acknowledge and research the work of Coach Ed Johnson for his coaching and mentoring of athletes from the South End.

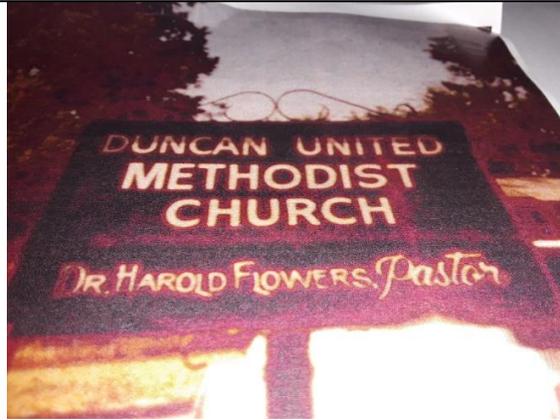

- Research and inventory the players that he has coached that went on to play in the National Football League.
- Research and inventory the players that he has coached that have made contributions to society.
- Consolidate the existing documentaries and articles that have been written about him in one location for ease of study later, possibly at the Mosaic Templars Cultural Center or the Butler Center at CALS.
- Encourage all papers and memorabilia of Coach Johnsons to be donated to the Mosaic Templars Cultural Center or the Butler Center at CALS.
- Explore listing of Coach Johnson’s house on the National Register of Historic Places. Coach Johnson, on a telephone call agreed to have exploratory research performed for inclusion to the National Register of Historic Places.

SOUTH END ACTION PLAN 2021

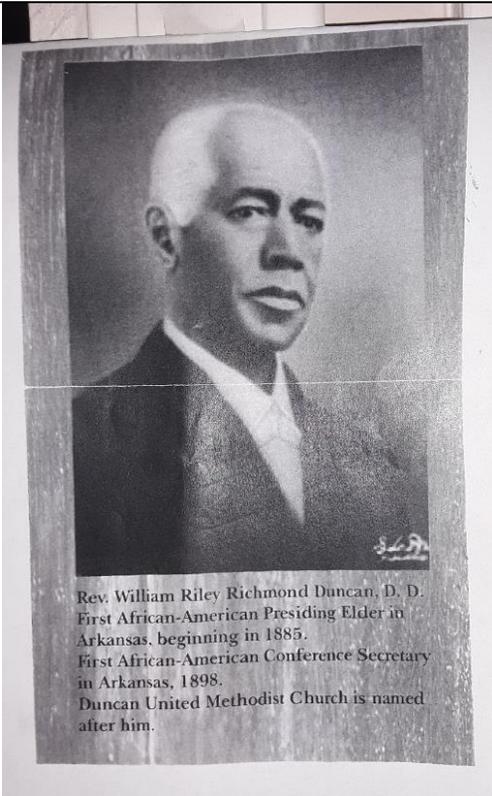

Churches: Churches have always played an important part in the life of the neighborhood. Some are featured here.

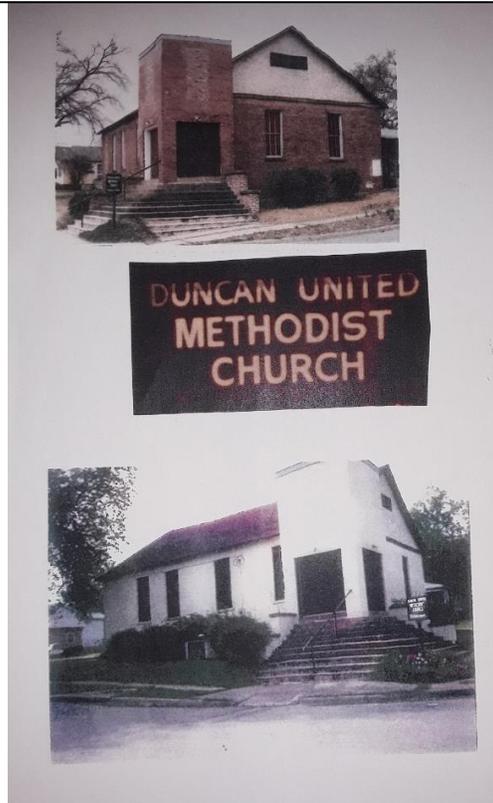

Dr. Harold Flowers was one of the first pastors of Duncan UMC. The Harold Flowers Law Society was founded and established in 1938 in honor of Dr. Flowers to bring together a like-minded community of African American lawyers of Arkansas.

Ish School at 3001 Pulaski Street opened in 1965 as an elementary school and was named for Jefferson Gatherford Ish, believed to be a former slave who was educated with his master's sons. It now serves as the LRSD Instructional Resource Center.

"J.G. Ish was a graduate of the Maryville Normal College in Tennessee. He came to Arkansas about 1881 and became an educator. Ish served as principal of three Little Rock schools from 1887 to 1906 and principal of the Negro High School at 9th and Hickory streets in Argenta (North Little Rock) in 1913.

"His son, G.W. Ish, became a prominent local physician, J.G. Ish Jr. was the principal at the University of Arkansas at Pine Bluff from 1915 to 1921, and members both their families were noted for their civic service."

-from the LRSD website.

SOUTH END ACTION PLAN 2021

Southside Park, Home of Coach Ed Johnson and the Sunset Tigers

The South End Neighborhood Association Coalition is asking that Southside Park be added on the Register of Historical places in Little Rock, Arkansas. Southside Park is on the land donated by Mr. Louis Whitmore, 51 years ago and he was a resident of the community. The address is #1 Whitmore Circle, at the intersection West 34th Street & Whitmore Circle, South of Roosevelt Road and West of Martin Luther King Jr. Drive. The park is east of Barton Coliseum at gate 12, next to the Rock Island railroad tracks and is in the midst of residential family homes that were built in 1945.

South End community activist, wife and mother, Velma Jean Gray was concerned about the youth in the area and wanted to create a sports program for them. But first, she needed a park to house the fields. The efforts yielded Southside Park, just off the intersection of 34th Street and Whitmore Circle, developed in 1970. The land was donated by Louis Whitmore, a former resident of Whitmore Circle. Beginning with a basketball court, ball field, playground equipment, picnic tables and bathrooms, the City of Little Rock constructed Southside Park and continues to maintain it.

In 1971, Velma Jean Gray spearheaded efforts to create a youth sports program in the neighborhood bound by High Street (now, Martin Luther King Jr. Drive), Roosevelt Road, and the State Fair Grounds. Joining her in that organizing effort were youth sports boosters and neighborhood parents Evelyn Fuller; McKinley Johnson Sr., Robert Nelson, Vernon Shackelford and other members of the Sunset community, which lies within those boundaries.

Otto Williams, then director of Pulaski County's Economic Opportunity Agency, better known as EOA, arranged for his agency to buy uniforms for the inaugural members of the Sunset Tigers, a youth football team that formed in the Spring of 1971. Since the team's inception, decorated Vietnam War Veteran Edward "Coach Ed" Johnson—who has two Purple Hearts, the Dr. Martin Luther King Jr. Award, a Bronze Star and several presidential citations, including one from then Gov. Bill Clinton—has been the team's athletic supervisor, chief fundraiser, mentor, surrogate father and support. (Coach Ed has received awards from youth sports organizations in Arkansas, Mississippi and Texas, among others.) His host of assistant coaches have included his younger brother, McKinley "Big June" Johnson Jr., Larry Gilmore, Leroy Brownlee and others from the neighborhood and, in many cases, alumni of the Sunset Tigers football team.

Southside Park has been the home of the Sunset Tigers Little League Football Team, for 50 years. Mr. Edward (ED) Johnson is the Head Coach and Organizer of the Legendary Sunset Tigers Little League Football Team. He is a youth mentor and surrogate father to those who had no father in the home. He received the Arkansas Community Service Award in 1983 from then Governor Bill Clinton. Since then, he has been an honoree and recipient of countless other service awards. For his Military Service to this country in the United States Army, he has 2 Purple Hearts, a Silver Star, a Bronze Star, a Vietnam Bronze Star and several President Citations. In 2019 he was inducted into the Arkansas Black Hall of Fame. According to his Hall of Fame Bio Coach Ed is believed to be the longest-serving active Community Youth Football Coach in the State of Arkansas. These accomplishments and community involvement have set the stage for his long term dedication to youth sports with the Sunset Tigers at Southside Park.

SOUTH END ACTION PLAN 2021

Since 1971, Head Coach Ed Johnson and his coaching staff has coached 4,900 plus youth football players in the last 50 years at Southside Park. He along with his staff, Parent Boosters, community supporters have seen players and cheerleaders go from Southside Park Little League Football Team members; to attending college and becoming leaders in their community. Many have become business owners, teachers, coaches, ministers and NFL players. The Sunset Tigers are a generational team of fathers, sons, grandfathers, mothers, and daughters wanted to be a part of the Sunset Tigers. Southside Park and the Little League Football Team has played a part in the lives of 47 players trying out for the National Football League (NFL); 24 players actually played for the NFL. Through Coach Ed Johnson's mentoring and dedication to the teams at Southside Park, all of the players graduated from college. There are others who may have played; however Ed says he stop tracking his former players in 2000. His focus now is no child left behind, tracking that one child who has no place to go or direction. This is his way of offering an alternative to youth who are at risk and could potentially drop out of school. He wants to continue to give hope to the hopeless and give them something to look forward too.

In its 50 years, the Sunset Tigers have hosted 658 games, 282 of them at their Southside Park home base. The team has won more than 40 bowl or league championships.

During each of the 50 years, as many as 95 youth have signed up to play, with 35 of them playing at any given time for a Sunset Tigers varsity, junior varsity or pee wee team. Also, during each of those 50 years, there were up to 25 cheerleaders supporting the team from the sidelines.

To be in the game, these youth athletes and cheerleaders have had to be in good academic standing at their respective schools. Yearly, at least 95 percent of players catapulted by the Sunset Tigers and slated to graduate from high school did, in fact, graduate. Twenty-four Tiger alum also have played for the NFL, including long-term NFL players John Bilal, , Charles Jackson, Keith Jackson Sr., Leslie O'Neal, John Simmons and Ricky Williams, just to name a few.

At Southside Park, there is a fence that separates the football field and the railroad tracks. On that fence hangs the history of the park (Our Lady) the team Legacy, our game records; 1977 Tigers -The Greatest Team Ever 13-0. Coach Johnson says these boards are what drives and inspires the young players today. They want to see their names on those boards at Southside Park. He lets them know it takes dedication, commitment, and giving your all on and off the field, in school and in whatever you want to achieve in life.

Coach Ed Johnson's recruiting boundaries for player began south of Roosevelt Road, west to Woodrow and east to Arch Street. This was agreed upon with other Little League Coaches. Players who played on the team that lived outside of the boundaries were at the request of their parents. His primary focus was to reach the youth who lived in the South End. In 2000 he saw there was a greater need to reach youth beyond the boundaries he had set. A young player, Nicholas (Nick) Jones #19 played quarterback and lead the team to championships during his season as a Tiger. He was memorialized June 10, 2020, in Southside Park on the field where he loved to play according to his mother.

In 1979, The Sunset Tigers were the first all-black team to play the first all-white program in the State of Arkansas. The team was called the Indianapolis Rangers from Indiana. In 1980, Coach Johnson was instrumental in helping Coach Mark Chilton organize the Benton Baby Panthers program and also

SOUTH END ACTION PLAN 2021

assisted Coach Bill Wilkerson in the development of the Sherwood Eagles program. Coach Johnson helped these white coaches to develop their programs in the 1980's.

The Sunset Tigers' key supporters have included the Sunset Tigers Parents Booster Club, Soldier's Wish Foundation, and the American Legion of Arkansas.

The Southside Park Sunset Tigers is proud to be a part of the community of players that played for the National Football League:

Below is a partial list of Sunset Tigers who excelled.

Player name	Year	Address	College	Professional Team
Eric Cray	(1972)			Pro-tryout
Darrell Dokes	(1972)		U of A	Kansas City Chiefs
Wayne Fuller	(1972)			First QB of Sunset Tigers
Darrell Mason	(1972)	312 Battery	U of A	Oakland Raiders

Brian Davis	(92-93)	5217 Gum Springs	U of A	Denver Broncos
Leroy Hamilton Jr.	(1996)	5909 Valley Drive	UCA	New Orleans Saints
Charles Clay	(98-99)	3124 West 11 th St.	Tulsa	Miami Dolphin Buffalo Bills

Southside Park, Sunset Tigers players, attended college and graduated with a degree that prepared them for their future. Just to list a few Derrick Bolden, Minister; Anthony Chambers, Head Coach McClellan and assistant Coach at Hall High; Tim Scarbrough, Coach at Hall High; and Rodney Peel, Vice President at Regions Bank until 1998 and at Arvest Bank currently. Wayne Fuller the first quarterback of the Tigers now owns Chicken Wang for 19 years.

It will be 50 years in 2021, since Mrs. Velma Gray, asked Coach Ed Johnson to help organize a football program for the youth at Southside Park. His hope is that the Legacy created at Southside Park continues long after he retires and that Southside Park receives consideration and recognition on The Little Rock Register of Historic Places as it continues to be an asset to the community and its youth.

SOUTH END ACTION PLAN 2021

The Tiger Heroes

They won Here

This is a transcription of the “OUR LADY” sign on the previous page. (Some grammatical errors have been corrected.)

Mrs. Velma Gray, the lady who had the outstanding vision of helping our youths of this community by providing better recreation for boys and girls. In 1971 Mrs. Velma Gray organized several youth sports programs in the Sunset Community. Mrs. Gray wanted the Whitmore Circle Community along with Sunset Community, both on the south side of Roosevelt Rd., bordered by High St. and the fairgrounds on the other side, to have our own park and playground. Mrs. Gray lived in the Whitmore Circle. She got with the City of Little Rock to come up with a plan, instead of always playing at Dennison Park, Mr. Louis Whitmore who also lived in Whitmore Circle owned the land our park sits on, and donated the land. The City developed our park and named it Southside Park. Mrs. Gray started girls’ softball and boys’ baseball. Our park had lights around the ballfield and a set of bleachers. In 1971 Mrs. Gray expanded our athletic programs by adding a youth football team. She got with the E.O.A of Pulaski County to help her get some uniforms, to start a team. She needed a coach and players, she got the coach, a wounded Vietnam vet. Along with his brother McKinley. Coach Ed Johnson and Mrs. Gray went to get some equipment and uniforms. The sporting goods store only had 17 – orange jerseys left, and we started with 17 – players dressed in orange and 3 – players in white t-shirts. “Now she had a park some equipment”. A team and our first name was Area-5 football team, until the spring of 1972, and the Frosty Flake T.V. ad was big with Tony Tiger. So, Mrs. Gray hinted to me about the name of Tigers, so Area-5 Tigers was on, and our football team took on the Velar Gray identity, small but a lot of spirit.

SOUTH END ACTION PLAN 2021

Mrs. Gray's first community staff was Mrs. Evelyn Fuller, Mr. Robert Nelson, Mr. McKinley Johnson, Sr., Mr. Vernon Shackelford. The spring of 1972 was our first practice Mrs. Gray along with Mr. Otto Williams of the E.O.A. made sure we had what we needed to have a chance to compete. Mrs. Gray worked all summer with the baseball programs. With her kids alongside her at every game, she made sure everyone knew her program represented their community. She spent money, time and sweat to make sure the Area-5 Tigers started right. She made sure our park was right, I think the mosquitos knew how Mrs. Gray felt about this park, because until her last days Mrs. Gray would walk down and ask me what do we need or is everything ok, and then go back home and the mosquitos would come out each day after 7 p.m. Mrs. Gray legacy will always be this park, the Tigers football program, and putting me (Ed Johnson) into coaching, and making sure our community was safe. The superwoman fits only one woman, Mrs. Velma Gray.

Thank you, Mrs. Gray,

SOUTH END ACTION PLAN 2021

An undated article from the Arkansas Democrat Gazette.

Coach's playbook includes life lessons

Claudia Laurer

ARKANSAS DEMOCRAT GAZETTE

A dozen boys come gather around an assistant football coach as he unleashes a haze of mosquito spray.

‘Bow your heads like you’re praying, and it won’t get in your eyes,’ yells Dylan Lowery, the 12-year old team captain of the Sunset Tigers. A rainy September weekend left standing water in the former creek bed that is now known as Southside Park. The tiny tree lined property is better known as Sunset Park by the residents of Little Rock's South End neighborhood, a small community east of the State Fairgrounds and south of Roosevelt Road.

More than 90 boys standing on in line for bug spray play for the three tiers of Tigers. They range in age from 5-13. The coaches go through five cans of mosquito spray a week when it rains, said coach Ed Johnson, the founder of the Tigers better known in the community as Coach Ed. The field, a few yards from a back gate of the fairgrounds, has been the Tigers’ home since 1971.

The park is near the bottom of the city's park maintenance schedule. The grass is often high, the bathrooms are leaky and snakes slither in the drainage ditches.

During home games, trains rattle and screech about 15 feet away from the edge of the field, drowning out the sounds of players, parents and the coaches' whistles.

But the kids keep playing, and the parents-keep cheering.

"There's nowhere I would rather be on a Saturday," says Coach Ed, sitting in a battered folding chair stationed beyond the end zone. "It might not be the Taj Mahal of fields, but this is our heaven."

For 41 years, boys have flocked there - boys who didn't have the money for more expensive programs; boys whose mothers decided they needed positive male role models; boys who, followed their friends to practice because they wanted to be part of-a winning team.

The football program, which targets at-risk youths and has spawned 18 National Football League players - including Keith Jackson - goes mostly unnoticed by people outside of South End.

"If you were a boy who grew up south of 630, you played for Coach Ed," said community activist Robert Webb, whose lanky teenage frame appears in several Tigers team photos from the 1980s.

"You may have only played in one game or come to a few practices, but you played for Ed. The program has had a role in so many lives. "There aren't enough programs that address the needs of kids in this community, and there are even fewer aimed at teens once they age out." Various plans being considered for expanding the State Fairgrounds have some residents in South End worried for the Tigers' home field. Two of those plans focus west and avoid South End. A third looks at 58 acres of houses along Battery Street and stops just short of the park. A fourth option affects the Tigers. Under it, the

SOUTH END ACTION PLAN 2021

Arkansas Livestock Show Association, which sponsors the State Fair, would petition to build an off ramp from Interstate 30 to the back gate of the fairgrounds. The association could look at acquiring the park, depending on the arc of the off-ramp and whether the train tracks need to be moved.

Arkansas Highway and Transportation Department spokesman Randy Ort said recently that the department has not begun studying the proposal, doing engineering on the possible location or having discussions with federal transportation authorities about the possibility. Meanwhile, Coach Ed - now 63 - announced in November that he plans to quit coaching next season and hand the reins to his assistant coaches.

He will continue to sit in his tattered chair beyond the end zone, help arrange away games, and handle administrative matters or field repairs, however.

Letting go of something he's spent so much care cultivating won't be easy, and he jokes that he's only 98 percent sure this will be his last season "unless some extenuating circumstance happens."

TEACHING LIFE LESSONS

Coach Ed says the Tigers program started as a way to help himself as much as a way to reach boys who needed something positive in their lives.

Before he became Coach Ed, the Little Rock native was a 20-year-old Army Ranger who spent 15 months in combat in Vietnam.

Two injuries brought him home early and ended his military career. He was injured after stepping on an explosive hidden in a peanut butter can. Then a few months later, he was shot in both legs during an ambush.

Doctors told him that he would never regain full use of his legs. Lying in bed at the Little Rock Veterans Administration hospital, he said, he had a conversation with God.

When he got home, he said, he knew he would walk again and that he was supposed to start a football team.

"I hear all the time from my past players how much the program meant to them," he said. "But without this program, I don't know if I would have made it through all of that. I think we all needed something positive in our lives."

During the first few seasons, the team gained fame for its winning record.

The program switched leagues several times, leaving a city league and eventually heading out on its own as an independent a few years ago.

Because of the team's reputation, it was easy for it to attract opponents from as far away as Texas, Mississippi, Louisiana, Missouri and other places.

SOUTH END ACTION PLAN 2021

The team wins, and it wins with grace.

While most youth leagues in Little Rock charge upward of \$75 per child, Coach Ed makes do with \$3 per boy. The players spend part of spring training sanding and repainting chipped helmets, and all the boys are issued used pants, pads and jerseys. They usually all get a crisp new pair socks. He negotiates with sports stores and bus companies for team equipment and travel deals. He relies on parents and community volunteers to provide concessions, take tickets and do occasional maintenance jobs.

"He's like a surrogate father to me," says Michelle Smith, a player's mother, who runs the concession stand.

"We argue and fuss, but the parents know when these boys enter those gates, they belong to the coaches, and they're in good hands. He's a role model, and he teaches them things that stick with them."

Coach Ed guides his team members with life lessons peppered with football strategies and sportsmanship requirements.

"You can't play if you aren't in school," says Jahmar Miller, 12. "And don't assume they [their opponents] can't play better than you," he added.

"And you have to be respectful of your parents, and we have to be good winners and good losers show sportsmanship," says Dylan, the team captain.

"I've learned to ... step up and to have confidence in myself since I started playing," he adds with a grin. "I used to be shy."

Almost every week, Coach Ed invites guests.

Prison guards, police officers, pastors, former felons, business owners and even state representatives visit, all to help the boys think about and plan how they want their futures to turn out. He practices positive reinforcement off the field, too. Boys who go to church, for example, get invited out for burgers, or to play video games and talk about football at his house.

"You don't go to church, you don't go to McDonald's," a former player joked.

Coach Ed also hangs yellow paper signs on trees around the park to catch boys' attention on their way to see their player statistics or to the concession stand.

Encouragement is everywhere.

One of his favorite signs reads, "An error doesn't become a mistake until you refuse to correct it."

SOME BOYS LOST

Despite his focus on positivity, Coach Ed knows his boys are not saints.

SOUTH END ACTION PLAN 2021

Once the team made the local news in a southeast Arkansas town for having a food fight at a McDonald's that was so messy that the restaurant had to be shut down for cleaning.

Another time, coaches noticed on an overnight trip that the older players were flocking to one boy's motel room. The boy had figured out how to order more than \$50 worth of adult films on the motel television, leading to a ban on overnight trips for more than a year.

The coaches now recount those incidents with roars of laughter, but other stories are not at all funny. Ed assesses every boy and every circumstance independently, but boys who have run-ins with the police are not allowed to play.

This year, one player was arrested after his father used him to help sell "fake drugs" to an undercover police officer. The coaches think the 11-year-old was subsequently sent to a youthful offender lockup in Louisiana, closer to where his mother lives.

Coach Ed reaches more boys than he loses, but inevitably some are lost.

The pastor at Coach Ed's church runs a prison ministry and recalled a recent sermon in which he told prisoners that people can always doubt words but cannot doubt a person's actions. The phrase sounded familiar to the prisoners, who started talking and realized that they had all heard it from Coach Ed during football practice.

"There must have been 20 of them, and I let him talk me into going up there and seeing them," Coach Ed says.

"I had tears in my eyes. They were all saying, 'Coach do you remember me?' And they were all apologizing to me for the things they had done and for not listening to me. I told them they didn't have to apologize to me because they were living with their mistakes."

Some mistakes are harder to live with, he says.

At Coach Ed's house in a room painted Sunset Tiger orange, his military medals and community service awards hang near trophies, plaques and team photos from almost every Tiger season. There are homemade certificates for every player who has made it to a college team or to the NFL. A plaque on one wall lists names in small, simple black letters. Coach Ed says those are the boys he lost to street violence.

"A lot of these boys died because of gangs. Some of them were just kids when all of that was happening," he says.

FOR IMMEDIATE RELEASE

Surprise Event to Honor Local Veteran and Coach

The American Legion Department of Arkansas, in Cooperation with the Soldier's Wish Organization and the City of Little Rock, will be honoring Coach Ed Johnson, a decorated, and dedicated Little League Football Coach of the Sunset Tigers, a Little League Football Team from South Little Rock which has produced notable professional athletes such as Keith Jackson, Anthony Lucas, and Eric Smith just to name a few.

The ceremony is being kept secret from Coach Johnson to help honor him properly, and Mayor Mark Stodola, as well as several other VIPs will be in attendance to help honor this decorated Veteran and long-time coach who has coached several thousand youth for over 48 years in the City of Little Rock. The ceremony will be held at 11:00 a.m. this Saturday, July 28, 2018, at Southside Park in Little Rock and media representatives as well as the general public are invited to attend.

The American Legion was chartered by Congress in 1919 as a patriotic veterans organization, and is currently celebrating 100 years of service to veterans, servicemembers and communities across the nation, and today, Legion membership stands at over 2 million in more than 13,000 posts worldwide. Over the years, the Legion has influenced considerable social change in America, won hundreds of benefits for veterans and produced many important programs for children and youth.

The mission of Soldier's Wish is to identify unmet needs of veterans of military service regardless of branch or rank and identify or provide resources to meet those needs by providing needed support directly to the veteran service members and/or their families in order that such service members can lead normal and productive lives. "Veterans" may be those who have served only a short time and are still on active duty, those who served a single enlistment, those who were discharged due to their wounds, and those who retired from active duty. In addition, Soldier's Wish helps to educate the public about the needs of the veteran's and active duty communities and encourage the public to participate in meeting those needs by volunteering and other means.

"Coach Johnson has given so much to these youth with his time, his money, and even of himself in mentoring and molding these young people into productive and successful young men," says Mary Gaines, one of the organizers of the event. "We want to recognize Coach Johnson for all he has done to help these youngsters, including making sure they have things they wouldn't have received otherwise, such as making sure they have meals, clothing, and many other basic needs so they don't fall through the cracks."

Again, the ceremony is being kept secret from Coach Johnson to help honor him properly, and Mayor Mark Stodola, as well as several other VIPs will be in attendance. The ceremony will be held at 11:00 a.m. this Saturday, July 28, 2018, at Southside Park in Little Rock and media representatives as well as the general public are invited to attend.

For more information, please contact the American Legion Department at (501) 375-1104, or visit the American Legion Department of Arkansas Web site at: www.arlegion.org.

SOUTH END ACTION PLAN 2021

Below is the text of the proclamation dated August 3, 2019.

CITY OF LITTLE ROCK, ARKANSAS PROCLAMATION

Know Ye All People By These Presents Greetings

Whereas, Edward Johnson was born in Pickens, Arkansas, raised in Little Rock and graduated from Horace Mann High School; and

Whereas, Edward Johnson served his country in the United States Army; and

Whereas, inspired by community activist Mrs. Gray and brother McKinley Johnson in 1971, Johnson began serving his community as a volunteer Little League Football Coach and affectionally earned the name, Coach Ed; and

Whereas, Coach Ed has encountered over 5000 kids from the greater Little Rock area, whom some have gone on to play football in high school, college and even on the professional level; and

Whereas, Coach Ed received a Silver and Bronze star as a Vietnam Veteran for his heroic achievements and meritorious service in a combat zone, earned two Presidential Unit Citations for extraordinary heroism during the attack on Pearl Harbor, along with two purple hearts, was honored by the American Legion in cooperation with the Soldier's wish organization, selected to be inducted in the 2019 Class of the Arkansas Black Hall of Fame; and

Whereas, Coach Ed has faithfully served in his community the last 48 years as a coach, mentor and positive role model.

NOW, THEREFORE, I, Frank Scott, Jr., Mayor of the City of Little Rock, Arkansas, do hereby proclaim Saturday, August 3rd, 2019, as

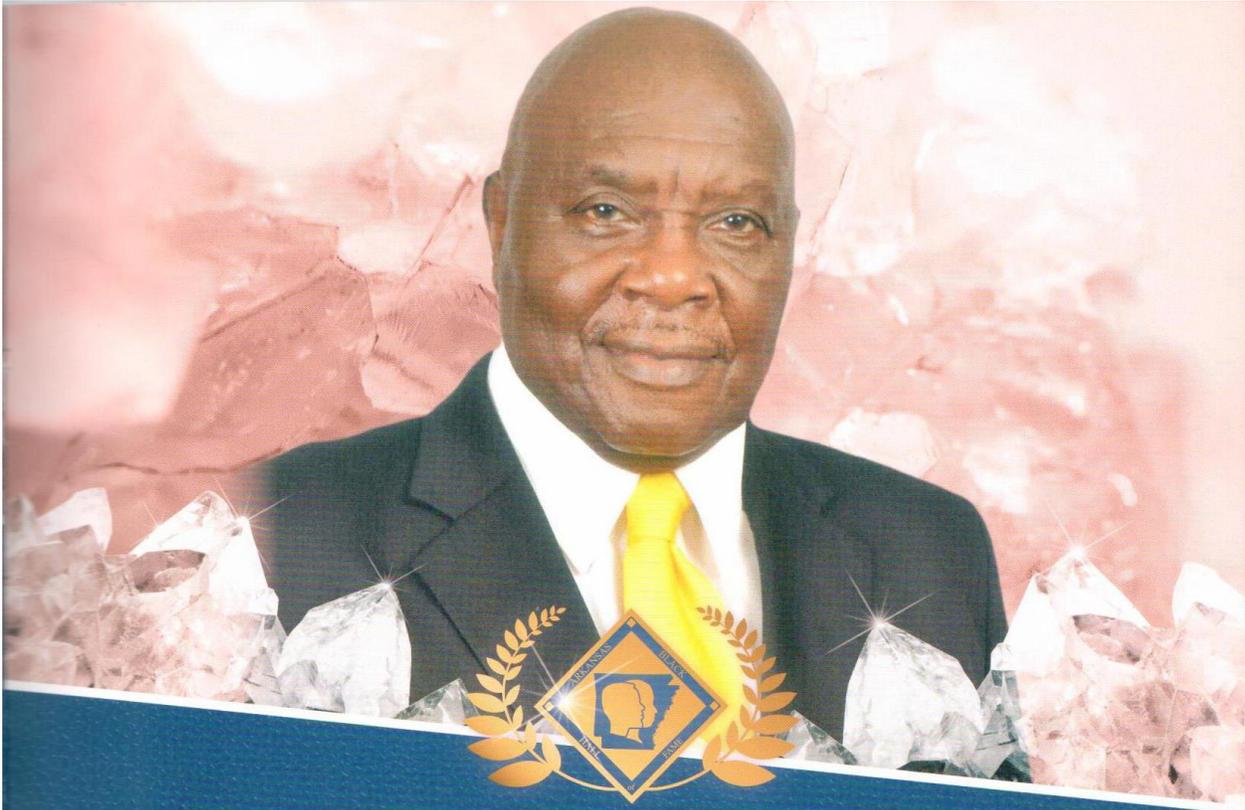

Coach Ed Johnson Day

in the city of Little Rock and call upon all citizens to join in expressing appreciation for Coach Ed's indelible impact in our community.

In witness thereof, I have hereunto set my hand and caused the seal of the City of Little Rock to be affixed on this 3rd day of August, in the year of our Lord, 2019.

SOUTH END ACTION PLAN 2021

COACH ED JOHNSON

Legendary Little League Football Coach and Youth Mentor

Having been Head Coach of the Sunset Tigers Youth Football Organization for the past 48 years, **Inductee Edward "Coach Ed" Johnson** is believed to be the longest-serving active Community Youth Football Coach in the state of Arkansas. In October 1971, Ed Johnson joined another community leader to organize The Sunset Youth Sports Program in the South End Community of Little Rock. At its inception, the organization consisted of basketball, volleyball and tennis teams. Approached by his brother with an offer to assist him in coaching a youth football team, Coach Ed formed the Sunset Tigers Football Team in 1972. Their home field would be Sunset Park located at 34th and Wolfe streets. Freshly home from the Vietnam War, Coach Ed said in organizing the team he was obeying an order from God. The boys were as good for him in helping him to readjust into society after his well-decorated service to his country as he was for them in a role much like a surrogate father. Johnson coached 27 players who went on to play in the National Football League and 75 college and professional team tryout players. His awards and recognitions are extensive including being inducted into the Mississippi Youth Football Hall of Fame and receiving special recognition by then Arkansas Governor Bill Clinton as a recipient of the Arkansas Community Service Award.

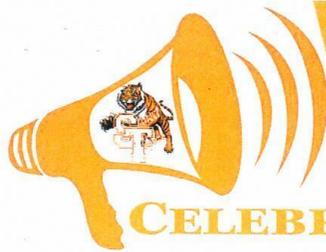

His military service is marked by two Purple Heart Awards, a Bronze Star Award, a Silver Star Award, a Vietnam Bronze Star Award, and several Presidential Citations. Coach Ed's team attends church with him and receives guidance and encouragement from him to ensure they remain on the path he believes God has laid for them. He continues to live in the South End Community, the area he has called home since he was 12 years old.

4 **WARD 1 AREA (LU11-01) FOR VARIOUS CHANGES (SEE BELOW);**
5 **AND FOR OTHER PURPOSES.**
6

7 **WHEREAS**, the Little Rock Planning Commission believes it appropriate to amend the
8 plan;

9 **NOW, THEREFORE, BE IT ORDAINED BY THE BOARD OF DIRECTORS OF**
10 **THE CITY OF LITTLE ROCK, ARKANSAS:**

11 **Section 1.** The northeast corner at the intersection of Bragg Street and East 21st Street. A
12 change from Commercial and Residential Low Density to Mixed Use. Mixed Use provides for a
13 mixture of residential, office and commercial uses to occur. A Planned Zoning District is
14 required if the use is entirely office or commercial or if the use is a mixture of the three.

15 **Section 2.** The area fronting Interstate 30 between East 24th Street and East Roosevelt Road.
16 A change from Mixed Office Commercial to Commercial. Commercial includes a broad range of
17 retail and wholesale products, personal and professional services and general business activities.

18 **Section 3.** The southwest corner at the intersection of East 29th Street and the Interstate 30
19 Frontage Road. A change from Commercial to Residential Low Density. Residential Low
20 Density provides for single-family homes at densities not to exceed six (6) dwelling units per
21 acre.

22 **Section 4.** An area generally located along West 32nd Street at Brown Street from Light
23 Industrial and Industrial to Public Institutional to represent the Pulaski County government
24 owned property. Public Institutional includes public and quasi-public facilities that provide a
25 variety of services to the community such as schools, libraries, fire stations, churches, utility
26 substations and hospitals.

27 **Section 5.** Properties owned by Arkansas Baptist College generally located south of West
28 17th Street between Wolfe Street and Dr. Martin Luther King, Jr., Drive from Residential Low
29 Density to Public Institutional. Public Institutional includes public and quasi-public facilities that
30 provide a variety of services to the community such as schools, libraries, fire stations, churches,
31 utility substations and hospitals.

PRESENTED: 03-25-2019 10:37:25 AM RECORDED: 03-25-2019 10:38:38 AM

In Official Records of Terri Hollingsworth Circuit/County Clerk

PULASKI CO, AR FEE \$20.00

ORDINANCE NO. 21,708

1
2
3 **AN ORDINANCE TO AMEND THE LAND USE PLAN (16,222) IN THE**
4 **AREA EAST OF INTERSTATE 530/UNION PACIFIC RAIL LINE**
5 **WITHIN THE CITY'S PLANNING JURISDICTION (LU18-01); AND FOR**
6 **OTHER PURPOSES.**

7
8 **WHEREAS**, the future Land Use Plan should be reviewed periodically to maintain its accuracy and
9 usefulness; and,

10 **WHEREAS**, City Staff has reviewed the area in question provided, considering the existing use and
11 zoning patterns as well as trends in development in the area; and,

12 **WHEREAS**, the Little Rock Planning Commission has reviewed the package of suggested changes
13 and now recommends them for adoption.

14 **NOW, THEREFORE, BE IT ORDAINED BY THE BOARD OF DIRECTORS OF THE CITY**
15 **OF LITTLE ROCK.**

16 **Section 1.** The area generally southeast of the Marshall Street and 7th Street intersection is amended
17 from Commercial (C) to Public Institutional (PI). (LU18-01-01)

18 **Section 2.** The area either side of Arch Street, north of La Harpe Boulevard is amended from Mixed
19 Use – Urban (MXU) to Public Institutional (PI). (LU18-01-02A)

20 **Section 3.** An area along the south bank of the Arkansas River from Broadway Street to the Union
21 Pacific Rail Road Line is amended from Mixed Use – Urban (MXU) to Park/Open Space (PK/OS).
22 (LU18-01-02B)

23 **Section 4.** An area south of Roosevelt Road at South Pulaski Street is amended from Residential
24 Low Density (RL) to Commercial (C). (LU18-01-03)

25 **Section 5.** An area east of Broadway Street, between 22nd Street and 23rd Street is amended from
26 Public Institutional (PI) to Mixed Use (MX). (LU18-01-04A)

27 **Section 6.** An area east of Spring Street, between 23rd Street and 24th Street is amended from Mixed
28 Use (MX) to Residential Low Density (RL). (LU18-01-04B)

29 **Section 7.** An area generally north of Roosevelt Road, between Spring Street and Louisiana Street is
30 amended from Residential High Density (RH) to Mixed Use (MX). (LU18-01-04C)

31 **Section 8.** An area generally southeast of the Springer Boulevard and Carolina Street intersection is
32 amended from Commercial (C) to Public Institutional (PI). (LU18-01-05)

33 **Section 9.** An area south of Thibault Road and west of Frazier Pike is amended from Agricultural
34 (AG) to Industrial (I). (LU18-01-06A)

SOUTH END ACTION PLAN 2021

1 **Section 10.** An area southwest of the Thibault Road and Frazier Pike intersection is amended from
2 Agricultural (AG) to Public Institutional (PI). (LU18-01-06B)

3 **Section 11.** An area east of Frazier Pike along the Arkansas River is amended from Agricultural
4 (AG) and Park/Open Space (PK/OS) to Industrial (I). (LU18-01-06C)

5 **Section 12.** An area east of Springer Boulevard and south of Interstate 440 is amended from
6 Park/Open Space (PK/OS) to Public Institutional (PI). (LU18-01-07A)

7 **Section 13.** An area west of Springer Boulevard and south of Interstate 440 is amended from
8 Commercial (C) to Residential High Density (RH). (LU18-01-07B)

9 **Section 14.** An area is generally north and east of Dixon Road to Wilbern Road is amended from
10 Mining (M) to Park/Open Space (PK/OS). (LU18-01-08A)

11 **Section 15.** An area is generally east of Dixon Road between Shamburger Lane and Ahart Lane is
12 amended from Residential low Density (RL) to Public Institutional (PI). (LU18-01-08B)

13 **Section 16. Severability.** In the event any title, section, paragraph, item, sentence, clause, phrase, or
14 word of this ordinance is declared or adjudged to be invalid or unconstitutional, such declaration or
15 adjudication shall not affect the remaining portions of the ordinance which shall remain in full force and
16 effect as if the portion so declared or adjudged invalid or unconstitutional was not originally a part of the
17 ordinance.

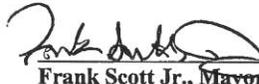

18 **Section 17. Repealer.** All laws, ordinances, resolutions, or parts of the same that are inconsistent
19 with the provisions of this ordinance are hereby repealed to the extent of such inconsistency.
