On February 1 of each year, the Overtime Distribution List for each shift's hours shall be adjusted to zero but the current ranking of individuals from the previous year's overtime distribution list shall remain the same.

(J) If no individual can be found for Voluntary Overtime on the off-going shift, then the Fire Department shall utilize the on-coming shift's Overtime Distribution List, in the position to be filled. At this time, if no individuals can be found for voluntary overtime, overtime shall be filled at management's discretion and no hours charged. Individuals will be paid one and one-half times in the rank hired or the rank they hold, whichever is highest.

Definitions:

- On-duty shift: Shift working
- Off-going shift: Shift that was relieved in the a.m.
- On-coming shift: Shift that has been off for twenty- four (24) hours

(K) In the event the Overtime Distribution List cannot be utilized because of specialized training restrictions, the Fire Department shall offer the overtime to the individual with required specialized training who has the fewest number of hours worked/offered, only after all available, on-duty, qualified individuals have been utilized. There is one exception to on-duty qualified individual. Captains shall not be detailed to ARFF on their duty day. Specialty companies shall consist only of ARFF, HAZMAT, and USAR. The Engineer positions on the Tiller Ladder Truck companies shall be filled with qualified individuals designated on the Overtime Distribution List.

(L) If an individual would like to be eligible for overtime on the off-going shift the procedure is as follows:

1. Log into the Overtime Call Log Portal on your normal duty day between the hours of 7:00 a.m. (the start of your shift) and 6:59 a.m. the next day (the end of your shift).
2. Indicate you want to work overtime by clicking the appropriate drop-down menu selection "I will accept overtime".
3. If you would like to accept overtime but are on another form of leave as discussed below in this section, then simply select one of the other appropriate choices.
4. This will place the individual on a call log that will be accessed at 7:00 a.m. at the beginning of the oncoming shift to be considered for overtime that day.

5. If an individual does not want to be considered for overtime that day, then do not log into the Overtime Call Log Portal. This will be equivalent of that individual being a verbal turn down if the Fire Department gets to their position on the Overtime Distribution List.

This call log will not affect the Overtime Distribution List which is based on number of hours worked. Beginning at 7:00 a.m. each day the Overtime Distribution List will be used as normal starting with the least number of hours worked and moving down the list in rank. If an individual has indicated on the Call Log Portal that they want to be considered for overtime, then the Fire Department will contact that individual when they get to their position on the Distribution List. If the individual did not place their name on the Call Log then when the Fire Department gets to that name on the Distribution List they will be charged a turn down as if they were contacted and turned it down.

(M) In the event that an individual must be offered Voluntary Overtime, the Fire Department shall first attempt to contact the individual at the station where he/she worked the day prior, and secondly call the number the individual furnished to the Fire Department. Offers for overtime after 0730, only (1) one call shall be made to the number the individual furnished to the Fire Department. . If the employee cannot be contacted, the opportunity will be offered to the next individual with the lowest number of hours worked/offered who indicated via the Overtime Call Log they are available to be considered for overtime. In the event that voice mail is contacted, the incoming call log on the individual's phone will be notification that an overtime call was attempted. The Fire Department will not be required to leave a voicemail.

(N) If an individual has decided to be removed from the Overtime Distribution List because they no longer want to be considered for overtime, he/she shall request to be placed on the Do Not Call List via electronic notification to all Battalion One Chiefs via chain of command. The individual shall remain on the Do Not Call List for a minimum (6) six-month period. Anytime thereafter, an individual may choose to be reinstated to the Overtime Distribution List via electronic notification to all Battalion One Chiefs. The individual shall be reinstated to the Overtime Distribution List at the sixteenth (16th) position and hours adjusted accordingly.

(O) Turn-down: A Turn-down shall equal the amount of hours offered. A turn down shall consist of:

- (1) If an individual states he does not want the overtime;
- (2) If an individual could not be contacted at the station or his/her other designated contact phone number;

- (3) If an individual is on sick leave for personal or family use, an employee must return to work prior to being eligible for an overtime opportunity;
- (4) If an individual is on disciplinary leave;
- (5) If an individual is on Administrative Leave pending disciplinary action.
If an individual has been charged a Turn-down and is cleared of charges, the hours charged shall be removed.

(P) In the event that an individual has previously committed to being on duty due to a Time Trade for twelve (12) or more hours for that day and wanted to be considered for overtime, he/she shall log into the Overtime Call Log Portal and indicate they are on a Time Trade that meets the hours under that rule. If the Distribution Overtime list gets to this individual, they shall not be charged a Turn-down. If the individual does not indicate they want to be considered for overtime in the Call Log Portal, even if the time trade hours have occurred, they will be charged a turn down.

(Q) When an individual is on Authorized Leave on their duty day, Authorized Injury, Modified Duty, paid military duty, Honor Guard for a member or retiree funeral, or paid Union Business Leave he/she shall not be charged a Turn down. If the individual has advanced notice of any type of leave they shall log into the Overtime Call Log Portal and indicate the type of leave they are on so that a Turn Down is not charged to them; however, hours will be adjusted accordingly once individuals have returned to work and are offered overtime. No hours charged or unused hours accrued.

(R) In the event that an individual is committed to another category of overtime that coincides with any portion of the Voluntary Overtime being offered, he/she shall log into the Overtime Call Log Portal and indicate they are on "Another Form of Overtime", and that individual will not be charged a turn down.

(S) If an individual is offered overtime and accepting the overtime will cause them to work more than forty-eight (48) consecutive hours, he/she shall have the option to work the overtime and be charged for the hours worked or turn it down with no hours charged. If this individual wants to be considered for overtime, then they shall log into the Overtime Call Log Portal and make the appropriate selection indicating they want to be considered for overtime, otherwise they will be charged a turn down. At no time may an employee work more than seventy-two (72) hours out of any consecutive eighty-four (84) hour period.

(T) All known vacancies for each shift will be filled starting at 7:00 a.m. each day until all vacancies have been filled. If a known overtime is needed on or after 1900 hours while the roster is being set, it shall be offered first to the on-coming shift, in the position that was vacated, on the company where the overtime is needed, regardless of the Overtime Distribution List. The next offer of overtime shall be made to the on-coming shift, in the position that was vacated, utilizing only the Overtime Distribution List. If the overtime is accepted, hours shall not be charged. If an individual is not available

for overtime, a Turn-down shall be charged for the hours offered. This procedure shall be followed until the vacated position has been filled. After the roster is set for the day if an individual must leave his/her duty assignment creating an overtime situation that occurs after 1300 hours then only the oncoming shift Overtime Distribution List will be used, prior to 1300 the off going Call Log will be used. This will be the filled in the same process as stated for the 1900 vacancy.

(U) If an individual accepts overtime that is six (6) hours or less it shall not affect his/her position on the Overtime Distribution List. If an individual is not available for overtime, a Turn-down shall be charged for the hours offered.

(V) If an individual is on or expected to be on any type of extended leave (other than vacation leave) for eight (8) shifts or more, that individual will be removed from the Overtime Distribution List. Once the individual has returned to work, they will notify Battalion Chief One via chain of command stating they want to be placed back on the Overtime Distribution List. Once an email has been received that individual will be placed on the list in the number one (#1) position, once they have accepted or turned down an overtime offer, they will be moved to the sixteenth (16th) position and hour adjusted accordingly. Example: modified duty assignment for forty (40) hour work week extending more than eight (8) shifts. Remove from list and placed back on once entire assignment of modified duty has been completed.

(W) The Battalion Chief shall update the Overtime Distribution List daily. At the time the daily roster is complete, a roster complete announcement shall be made. The list shall be electronically distributed by email to the "Fire Department Email" distribution list and the email address supplied for Local 34 as soon as the roster is complete. The list shall include the overtime details (who, what, where).

- (A) All positions to be filled by lateral transfer and the opening created by the first winning bid (the opening created by the second winning bid will be filled at management's discretion) shall be announced by a Fire Department generated Informational Bulletin distributed on the City e-mail mail system for a period of at least three (3) calendar days. Such announcement must include a description of the position to be filled, the opening date of the application period, and the closing date of the application period. The announcement will include the name of the retired or promoted member creating the opening when applicable. Such positions shall be considered open for application for this three (3) calendar day period. Applications and withdrawals for bid are to be submitted to thefiredeptsenioritybidemail@littlercok.org, no later than 1400 hours on the date of expiration of the application period. Fire management will post first and second tier notification on all announcements of positions to be filled through the seniority bid system. If simultaneous openings occur, the senior employee's position shall be posted and bid first

and progress until the simultaneous openings are all posted for bid. Fire management will stagger the bids by one day based on seniority.

- (B) In the event that more than one employee submits an application for the position, the position shall be filled by the bidding employee with the greatest seniority, in rank, providing that the transfer of the employee will not violate the City's Nepotism policy as outlined in the current City's Administrative Policy and Procedure Manual.

In the event that no bid is received for a posted position for Firefighter, management may assign any Firefighter to fill this position.

The employee may not bid on another position during the period that the employee's position is open for bid.
- (E) Seniority shall be defined as continuous service in current rank. Should the date of rank be the same for two or more employees, the determining factor shall be the length of continuous service on the Little Rock Fire Department. Should the length of continuous service be equal, the employees' names will be placed in a hat and the winner will be the employee's whose name was drawn. This process will be done in the presence of both a management and labor representative
- (F) If an employee wins a bid application for transfer on multiple open positions he/she will be granted the position that closes first and any other winning bids by said employee will be voided.
- (G) If an employee is deemed to be the successful bidder and receives the transfer, he shall be ineligible to submit a request for transfer, submit his/her own position for bid application, bid on an open position or bid on a position submitted for bid application for

a period of two (2) years from the effective date of transfer. All unsuccessful bids shall be destroyed.

- (H) This language in no way restricts the right of management to re-assign employees on a needed basis. Transfers by management shall not limit the employee in the right to bid for another position or offer his/her position for bid. If management subsequently transfers an individual within two (2) years of that individual's successful transfer bid, he will then become eligible to bid on open positions, positions submitted for bid application and have the ability to place his/her position in consideration under Section D of this Article and the position will be opened for bid as outlined in Section A of this article.
- (I) No probationary personnel in the rank of firefighter shall be eligible to submit an application for bid transfer or place his/her position in consideration under Section B of this article.

Employees assigned to specialty companies cannot bid on positions put up for bid unless the employee offering his/her position for bid is willing to receive all training required to work on the specialty company. The Training Division will determine specialty company qualifications, as approved by the Fire Chief. Employees that receive a bid transfer to a specialty company will be disqualified from submitting a bid application on an open position or placing their position up for bid for three (3) years from the date of their transfer. If no application is received for a posted open position for Captain or Engineer on a specialty company, management will assign the position to the most junior employee of that rank. These employees will be disqualified from submitting a bid application on an open position or placing their position up for bid for two (2) years from the date of their transfer.
- (K) Upon multiple bids affecting the staffing on a specialty company, the Department may utilize the following guidelines to ensure the integrity of the company:
